A SUGGESTION TO THE GAME COMMISSION

The elk and deer seasons in Eastern Oregon ended Wednesday night, but the hunters are still carting in carcasses—and the forests have been thinned of their fleet-footed animals.

Ideal weather and the lure of the great elk combined to bring thousands of nimrods into the hills of Union, Wallowa, Baker and Umatilla counties. And there was slaughter!

It has been many, many years since so many hunters joined in a concerted effort to bring home the "bacon" and they were successful. In some sections of Eastern Oregon where elk were plentiful a few days ago, there is scarcely a bull elk left. A few escaped here and there, but it will be many years before the big herds of other years have returned to former numbers.

More deer than usual were killed these last three days, also, and it is safe to say—at least local sportsmen are saying it—that deer hunting will not be good for several years.

We are not particularly criticizing the game department and legislature for declaring an open season on elk in this section. Perhaps, however, a suggestion might be made. It is this—don't open the elk season in Eastern Oregon for another long period of time and don't open both seasons at the same time. Another open season like this one, and big game hunting would be a thing of the past in this section.

In years to come if another open season on elk is desired would it not be wise to let the license be so high for both out-of-state and out-of-Eastern Oregon hunters that there will not be such a tremendous rush to the hills. If the state is going to be mercenary about hunting elk at all, let it go far enough to make it pay when the books are balanced. It surely didn't pay this year!

WAKE UP YOUR LIVER BILE— WITHOUT CALOMEL

And You'll Jump Out of Bed in the Morning Rarin' to Go

If you feel sour and sunk and the world looks punk, don't swallow a lot of salts, mineral water, laxative candy or chewing gum and expect them to make you suddenly sweet and buoyant and full of sunshine. For they can't do it. They only move the bowels and a mere movement doesn't get at the cause. The reason for your down-and-out feeling is your liver. It should pour out two pounds of liquid bile into your bowels daily. If this bile is not flowing freely, your food doesn't digest. It just decays in the bowels. Gas builds up your stomach. You have a thick, bad taste and your breath is foul, skin often breaks out in pimples. Your head aches and you feel down and out. Your whole system is poisoned.

It takes those good, old CARTER'S LITTLE LIVER PILLS to get those two pounds of bile flowing freely and make you feel "up and up." They contain wonderful, harmless, vegetable extracts, amazing when it comes to making the bile flow freely. Just don't ask for liver pills. Ask for Carter's Little Liver Pills. Look for the name on the label. Resistant to substitutes. See at drug stores. © 1933 C. M. Co.
