LITVINOFF HOPES FOR QUICK ACTION IN UNITED STATES

BERLIN, Oct. 28 (AP)—Russo-American relations can be reestablished within a half-hour, so far as Maxim Litvinoff, soviet foreign commissar, is concerned.

Deluged with requests of American correspondents to receive them, Litvinoff broke his self-imposed pledge not to talk en route to Washington for discussions with President Roosevelt.

To a barrage of questions as to the problems to be discussed with President Roosevelt and the effect of recognition upon Russia's economic relations to other nations, Litvinoff said: "As far as I am concerned, everything could be settled in a half-hour."

After a pause, he summed up the effect of recognition, however, by saying that "every new relationship established between two nations must to some degree affect the relations of all other countries."

NRA FORBIDS U. S. PURCHASING FROM UNSIGNED FIRMS

WASHINGTON, Oct. 28 (AP)—President Roosevelt regards the industrial recovery act as forbidding government purchases of products manufactured by concerns not under the NRA such as automobiles made by Henry Ford.

This ruling will be followed by the administration. It was made plain today at the White House, unless the comptroller general interposes.

WASHINGTON, Oct. 28 (AP)—A stern decision to prosecute conspicuous violators appears to have supplanted NRA's long-exercised care to avert its industrial program from court attack.

From the signing of the industrial law until now, Hugh S. Johnson has picked a course calculated to lead around the pitfalls of legal action. Attempts at vigorous enforcement have been mild, with a clearly indi-

ated policy that an easy attitude would bring most results in the first objective of getting American industry and trade under codes. But yesterday's outright promise of prosecution if and when Henry Ford should be found to be violating the automobile code, signalled a new readiness to face a constitutional test of the industrial law.

"Johnson is not boycotting us," the Ford Motor company said. "He is boycotting \$300 American manufacturers who co-operate with Johnson. Not only has Johnson attempted a grave injustice upon a law-abiding American industry, he also has assumed to talk like a dictator and the supreme court combined." The Ford statement referred to \$300 in quantities whose products Ford uses.
