Andrew Loney Jr., director of the band for many years, expressed himself as willing to do all in his power to make the band interesting and helpful to the members. After general discussion it was the sentiment of the band that rehearsals would be continued and that those members who do not show sufficient interest to attend rehearsals regularly be dropped from the band and their places filled by other players. No plans have been made for any public appearances as the band has not sensed any desire by the public of La Grande to have these appearances as in the past. The band receives no support from any source whatever, and is operating as a mutual organization, every member on exactly the same basis as every other, it is reported.

Clark Wood Says

Not a few of us are personally familiar with a mismanaged currency. Warmth of manner is no doubt a social asset to a nudist lady in the winter season. There remains the danger that Uncle Sam may be obliged to keep on giving until he gives out. The French mix alcohol with gasoline for motor fuel. Better in the engine than in the driver. If Father Knickerbocker does not get a good mayor it won't be because he hasn't promising candidates.

KLAMATH PLANS LIQUOR STORES KLAMATH FALLS, Ore., Nov. 7 (AP)—A liquor ordinance designed to forestall possible state stores in Klamath Falls was informally approved by the city council Monday afternoon.

The measure, regarded by Willis E. Mahoney, mayor, as a direct challenge to state control, will regulate sale and consumption here. It will permit operation of exclusive and city licensed bottle liquor stores. We challenge the right of the legislature to enact a state law putting the state into the liquor business and taking the control power

SIX STATES ARE VOTING ON REPEAL

(Continued on Page Six) district, predicted a total vote higher than that cast in last year's presidential contest. A vote of 5,000,000 was predicted in New York state, where state elections and the New York City mayoralty campaign were being settled.

Gotham's balloting was accompanied by violence and disorders that drew a threat from Fiorello LaGuardia's forces to ask protection of national guard troops. The fusion candidate mixed in a polling place argument with Tammany workers and trouble was averted only by police intervention.

Blackjacking, cruising gangs of thugs and swelling numbers of illegal registration arrests marked the New York City elections. Repeal ballots were cast in Ohio, Pennsylvania, North and South Carolina, Kentucky and Utah. With 33 states on record for repeal, only three more are necessary. Anti-prohibition leaders predict today's voting will accomplish the necessary two-thirds majority of the states necessary for repeal.

Violence flared in Kentucky. One man was slain in a quarrel between negroes at a voting place near Louisville. Two were killed and three wounded critically at Layman. In Fleming county, Watt Dearing, 72, was shot and critically wounded, and his son, Jim, 48, was arrested.
