KNOX PLAN IS FAVORED BY GOVERNOR

(Continued From Page One)

mitted to the governor after three months study and the report forwarded to members of the legislature. It recommends state owned liquor stores.

2. All revenues from the sale of liquor over operating costs, together with "such other revenues as you may provide for unemployment relief, be paid into the unemployment relief fund until June 30, 1935, or until the relief emergency has been passed. After the emergency has been passed, the governor stated the revenue should go to the state and counties at a 25-75 per cent basis. He estimated revenue from liquor sales between \$1,500,000 to \$2,500,000 a year.

3. Gross earnings tax on public utilities. The governor stated that "among other possible available revenue to aid our distressed schools, I would recommend for your favorable consideration a gross earnings tax on public utilities." He emphasized the need for relief in schools, citing the large delinquency of school warrants.

4. Tax delinquencies and refinancing. Declaring that "mounting tax delinquencies have created a financial crisis," the governor urged "creation of a separate state authority, vested with power to aid in the refinancing of state, municipal and local bonds, warrants and other similar evidence of indebtedness. This authority would be vested with power to borrow from the federal government."

5. Truck and bus legislation. Only one short reference was made by the governor on the truck and bus issue. He declared that since the enactment of the present measure for bus and truck legislation, "protest has been made that inequalities exist in the operation of this law. If such inequalities exist they should be adjusted, but the principle that buses and trucks should pay a fair return for the use of our highways should be maintained."

An almost unanimous expression of "fine message" was made by leading senators and representatives following the governor's address. Many of them said they agreed with the program with but few exceptions.

Enrollment in the Alaskan Agricultural College and School of Mines has increased in 11 years from six to 126 students.

Bronchial Troubles Need Creomulsion

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action; it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the inflamed membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, and attacks the seat of the trouble.

AT THE LIBERTY

Richard and Pringle's Famous Georgia Minstrels with 40 of the world's best comedians, singers and dancers, will be on the stage of the Liberty theatre for two evening performances Tuesday night. The shows begin at 7:30 and 9:30. Beautiful high brown native girls are included in the show, and the chorus is one of the many features that have attracted large crowds in every city the minstrels have played. Features are Broomfield and Greeley and their Harlem Night Club Creole Girls. In addition to these performers there are comedians that really make one laugh, ballad singers of excellence and scenery that baffles description. Also there is a band to furnish the music.

The girls' wardrobe has been augmented by the most daring and beautiful creations from Paris, according to announcement.

Broomfield and Greeley are members of a dancing team just back from a two-year trip in Europe.

STOCKS IN BRISK RALLY IN MARKET

NEW YORK, Nov. 20 (AP)—Stocks rallied briskly in the final hour today, apparently encouraged by recoveries in wheat of more than 2c a bushel and improvement in other commodities. The list closed through most of the session, however. The close was firm with gains of 1 to 4 around 4 points predominating. Transfers approximated 1,900,000 shares.

Investigator in Port Case Murdered Today

there was a bruise on the top of his head.

Mrs. Akin, a school teacher, said her husband had been threatened many times since he had been assigned to investigate conditions in the Port of Portland administration. Akin's investigation of the Port of Portland commission extended over a considerable period of time, and resulted in an 1800-page report charging James H. Polhemus, manager of the port; Kenneth D. Dawson, commissioner, and Frank M. Warren, retiring chairman, with practices against best interests of the commission and the public. No action was taken on the report of the investigating committee which filed a majority and minority report.

The commission as a whole was scheduled to meet late this week to hear both reports.

AN EXCELLENT PLAY

The La Grande High school senior class' play "The Intimate Strangers", goes down in local records as one of the best dramatic productions presented here by an amateur cast. From the director, Miss Kathryn Sartin, down through the actors, managers, etc., all those who helped to make the production a success are deserving of a great deal of credit.

FOG — AND AIR TRAVEL

La Grande, besides its geographical location which makes it ideal as an inland air travel center, has another good point that is perhaps the most outstanding of all. It is absence of fog. The other night, it was learned that every airport of consequence in the far western states was covered with a blanket of fog with the sole exception of La Grande. When permanent airports of travel are finally decided on in the Pacific northwest, that matter of fog should go a long way toward giving La Grande a favorable position.

THE BOXING TOURNAMENT

La Grande is about to be treated to a new sort of sporting event — at least new to this section of the state — an amateur boxing tournament. Scores of eager battlers, simon-pure and with only one object in mind—to win, will go into action Tuesday night at the Sacajawea arena, the show sponsored by the Eagles lodge for its benefit fund. La Grande boys will be pitted against out-of-town boys according to weights.

Probably more action will be seen during any one night of the three-day tournament than during two or three professional cards, and all indications point to unusually large crowds. It will be one of those events wherein the fighters get no money, but they'll be fighting for the glory of a title, and there's bound to be battling galore. And may the best man win!

HAY MARKET DEMORALIZED

PORTLAND, Nov. 20 (AP)—Complete demoralization of the Puget Sound hay market, indirectly affecting Portland, was announced as a result of the cutting of the freight rate on alfalfa from California from \$5 to \$2.50 ton. California alfalfa to the extent of 650 tons has already moved to Puget Sound and has forced the market here \$1 lower. It is now being offered to Portland at \$15.50 @ \$16.00 ton or 50c below existing prices here.

There's Nothing Untried in the "CATERPILLAR" DIESEL 'THIRTY-FIVE Tractor'

For many years "Caterpillar" Track-type Tractors have demonstrated their ground-gripping traction, power, stamina and dependability in the toughest jobs of farming, logging, dirt moving and industry.

After years of research, the first "Caterpillar" Diesel Tractor powered with the "Caterpillar" Diesel engine was released for sale two years ago. Since that time, larger size "Caterpillar" Diesel tractors have operated thousands of hours in the hardest-kinds of work in our territory.

The "Caterpillar" Thirty-five Diesel uses the same tried and proved engine parts as the larger Fifty and Seventy-five models. You'll agree it shows clever engineering when you see it.
