E. O. N. Faculty Members Enjoy Dinner And Program Monday Evening

A discussion of American composers with emphasis given to piano compositions was directed by Miss Jennie Peterson last night when the faculty of the Eastern Oregon Normal school held another of the series of regular faculty dinners. Miss Peterson illustrated different types of American music with interesting interpretations on the piano, later leading other members of the faculty in discussion.

Selections which Miss Peterson played from the modern composers, although all of the numbers are not particularly modern in treatment, are "A Deserted Farm" and "From An Indian Lodge," Edward MacDowell; "Soft Shoe Dance," Dent Mowrey; "Juba Dance," Nathaniel Dett; "Tango Americaine," by John Alden Carpenter; "Filtration in a Chinese Garden," by Abram Chasins, her most modern selection; "Merry-Go-Round," from the suite "At The Fair," by John Powell; "Valcik," by John Moez.

The Dollar You Pay for Electric Power and Light

Study the Above Chart — It represents the dollar you pay for Light and Power in Union and Baker counties and just how it is divided in covering the expenses of operation of the Eastern Oregon Light & Power Company in these two counties.

Much of It Comes Back To You!

For the year 1932 the EASTERN OREGON LIGHT & POWER COMPANY expended for its operations in Union and Baker counties the sum of \$389,985. Of this total the following sums were spent directly or indirectly back in what might be termed "pocket-book helps" for our consumers in these counties.

- \$127,061 RETURNED IN PAYROLLS**
This is the total sum received by E. O. L. & P. company employees as salary for services during the 1932 year. All employees are residents of and many own their own homes in Union or Baker counties.
- \$58,220 RETURNED IN LOCAL TAXES**
This is the sum of the tax bill of the E. O. L. & P. company, paid the past year into the public coffers of Union and Baker counties and their cities and towns. One of the largest individual tax payments made to either of these counties and a sum, as it is used, that covers in itself entirely the cost of many necessary governmental offices that would otherwise have had to be paid by increased tax upon other private properties.
- \$57,251 IN REPAIRS, RENTALS, Etc.**
The great bulk of this total is spent with contractors, business firms and property owners of Union and Baker counties and eventually, through these channels, much finds its way into other payrolls.
- \$26,007 FOR MATERIALS AND SUPPLIES**
Although local facilities and stocks are not always adequate to take care of all needed materials and supplies, every item that is available, and that is a great portion, is bought from business or supply firms of the two counties.
- \$11,563 FOR PROPERTY EXPENDITURES**
Like materials and supplies, all of this sum possible was expended locally. Considerable of this amount goes for labor, which is entirely local in its distribution.

A total of \$280,102 returned directly or indirectly to the advantage of the continued progress of Union and Baker county communities in which we operate — More than two-thirds of our company's yearly revenue in dollars comes back in one way or another to those who spend them with us.
