Bronchial Troubles Need Creomulsion

Persistent coughs and colds lead to serious trouble. You can stop them now with Creomulsion, an emulsified creosote that is pleasant to take. Creomulsion is a new medical discovery with two-fold action: it soothes and heals the inflamed membranes and inhibits germ growth.

Of all known drugs, creosote is recognized by high medical authorities as one of the greatest healing agencies for persistent coughs and colds and other forms of throat troubles. Creomulsion contains, in addition to creosote, other healing elements which soothe and heal the infected membranes and stop the irritation and inflammation, while the creosote goes on to the stomach, is absorbed into the blood, and attacks the seat of the trouble.

Creomulsion is guaranteed satisfactory in the treatment of persistent coughs and colds, bronchial asthma, bronchitis, and is excellent for building up the system after colds or flu. Your own druggist is authorized to refund your money on the spot if your cough or cold is not relieved by Creomulsion. —Adv.

MAN ARRESTED NOT BOWEN IS REPORT HERE

A state police chase that resulted in victory as far as the capture was concerned, left officers today without clues as to the whereabouts of William Bowen, one of several men who escaped from the state asylum some weeks ago.

Bowen was reported to be passing checks in the mid-west signed by the name of John Burton. So when a "John Burton" check was passed in Pleasant Valley search was started and State Policeman Jack Walden arrested the man at Crown Point Saturday night. Burton spent all Friday night in La Grande at Johnson's auto camp. Officers were not notified about the check until Saturday afternoon and in only a few hours time picked up Burton, who was travelling by automobile.

However, reports received by state police here were to the effect that the man arrested really was John Burton and had no connection with the Oregon fugitive.

CAR HITS COW ON HIGHWAY

Eldon Steele reported to the police that his automobile hit a cow on the Old Oregon Trail highway a quarter of a mile the other side of Catherine creek bridge between Hot Lake and Union Sunday. No one in the car was hurt. He attempted to stop but was unable to avoid a collision, he said.
