

MINE TO DOLLAR STEP FOR SILVER UNDER NEW PLAN

WASHINGTON, Dec. 22.—Steps toward the mine to the dollar in President Roosevelt's silver dollar plan are outlined today by treasury reports. A silver dollar will be minted in Philadelphia, Denver and San Francisco. The metal is assumed and said to contain 1566 ounces of pure silver.

The mint turns 500 ounces of silver dollars over to the treasury as the government's share. It receives the other 500 ounces plus silver dollars and pays them to the mine.

The 500 ounces will contain 95 grains of silver or an aggregate of 245,000 grains. Every silver dollar contains 25.75 grains of pure silver or, roughly, three-quarters of an ounce.

Striking the 245,000 by the number of grains in a dollar, or 25.75, gives \$946.65. This is the amount of dollars the 500 ounces will make and the number of dollars the mine receives.

This government savings \$150,000

each of the 500 ounces but since the mine started in 1930, it has changed its price on the whole an average one-half of \$1.25 or 62 1/2 cents.

RE-OPENING HIGHWAYS IN STATE TODAY

(Continued From Page One)

The Salem road was practically all unobstructed.

Water was standing at the Salem station, sections of which were flooded with half a foot of water yesterday.

Train service between Portland and Seattle has been definitely halted until Monday, railroad officials in Portland announced today. Schedules were cancelled as a precautionary measure because of the soft condition of tracks. Motor stage service is operating, but at slow schedule.

Railroad service from Spokane and the east was unimpaired, but schedules were being maintained to day.
