 Helen Hayes' success on the stage in "Mary of Scotland" awakened the screen to the dramatic possibilities in a character known to every school child, and now the film rights are being sought, while Universal, right in step with the trend toward historical drama, loses no time in buying Adrian Johnson's "Elizabeth and Mary" and announcing it as the most lavish production it has ever given a costume drama.  
 Mae Gets Slammed  
 Mae West was chatting with a friend on the lot when a young actress passed, spoke to the friend and hesitated, awaiting an introduction to the queen of curves.  
 Mae acknowledged the introduction with a short "How-d'ye-do" and went on talking. The other girl left in a huff. Next day she met the mutual friend and sniffed witheringly: "Who was that stupid-looking dame I saw you with yesterday?"

## DeMille Hunting Two Huskies For Caesar, Antony

HOLLYWOOD — The search for a couple of handsome huskies to portray Julius Caesar and Marc Antony has taken Cecil B. DeMille to New York, where he came most of the present crop of movie actors whose physiques the director now views with disappointment.

In the rough-and-tumble silent days, before dialog made chest development subordinate in the actor's starring qualifications, DeMille's quest might not have been so difficult.

But if C. B. can't find his Antony and Caesar in New York—and he's willing to use unknowns provided they meet specifications—there's always the assurance that the camera and makeup can do wonders with the way a body photographs, and that regardless of those revealing Roman togas.

A discreet bit of padding here, a dab of paint there to highlight muscles, and a fair-to-middling physique can be made to vie with that of Hercules—at least while the camera's working.

Digging into The Past  
 DeMille's plans for "Antony and Cleopatra," with Claudette Colbert set to play the Egyptian queen, indicated the general interest in film biography, and are rather unusual in that the studio has purchased no recent novel or play on which to base its picture. Instead its researchers are delving into many historical sources.

Warner Bros., bought Emil Ludwig's "Napoleon" when they projected filming the romance of the little Corporal, and M-G-M acquired movie rights to Zweig's portrait of Marie Antoinette before announcing the French queen as a subject.
