Is This Too Good For Your Cough?

Cremulotion may be a better help than you need. It combines seven major helps in one — the best help known to science. It is made for quick relief, for safety.

Mild coughs often yield to lesser helps. No one can tell. No one knows which factor will do most for any certain cough. So careful people, more and more, are using Cremulotion for any cough that starts.

The cost is a little more than a single help. But your druggist guarantees it, so it costs nothing if it fails to bring you quick relief. Coughs are danger signals. For safety's sake, deal with them in the best way known. —Adv.

SPLINTERS is back on the air again, after a long rest. The editor of Splinters thinks that times really are getting better. Instead of advertising when business is bad like the OBSERVER says we should do, we wait until it gets good so we can pay our advertising bill.

All the coal dealers of Eastern Oregon are planning on getting together and holding a great big meeting and praying for cold weather. Farmers pray for rain and the coal dealers are all pretty good scouts. It might bring results.

Have you tried our famous KEMMERER No. 5 coal? It holds fire longer and you don't have so much soot in your stoves and flues. Try a load next time.

Cross and short-lighted old lady (in Harley's Art Shop): "And here, I suppose, is another one of those horrible portraits you call 'art'!" "Excuse me Madam," said Harley, "but that's a mirror."

This has been the best year so far for selling weatherstrips. We have re-ordered three times since October first. Try our

"So you've finished papering the dining room?" "Yes, Ma'am." "But what are those big bumps on the wall?" "Omgosh! I forgot to take down the pictures."

Have you ever thought you would like to insulate your attic? It can be done now for less money with BALSAM-WOOL, the water-proof and fire resisting insulation.
