LA GRANDE NEEDS AUDITORIUM

Students at La Grande High school have gone through a little more than half of the 1933-34 school year in their remodeled building, and it has been proven satisfactorily that the building is adequate for all demands made upon it but one.

At present, because there is no other alternative without disruption of classes, assemblies, dramas, etc., are staged in the gymnasium in the first floor of the High school.

Just as an example. The senior talent assembly was staged in the gymnasium, for both students and public. There are nearly 700 students in the school, scores of parents and friends who delight in such entertainment.

Why suffer longer without at least making further effort? In all likelihood the C. W. A. would furnish the payroll if the materials were furnished locally.

LONG LIFE HELD ATTAINABLE SOON --MODERATION KEY By Howard W. Bhallesle (Associated Press Science Editor) NEW YORK — Ten thousand Japanese more than 80 years old recently told how they live, and their stories agree with the general dietetic advice given for the several still dimly understood, scientific roads to longevity.

These roads are diet, heredity, rest and mental poise. All seem to be converging toward the common goal of moderation.

On the diet road there are two recent significant surveys indicating how man may soon learn to prolong his life. The latest by Dr. C. M. McCay, of the Cornell university animal nutrition laboratory, challenged the present practice of feeding both animals and children enough to produce maximum size in the shortest time.

In his colony of rats Dr. McCay has some already twice normal rat ages, and still going with the oldest equal to 110 years of human life.

The lives of these animals were doubled by just one thing—feeding them less than enough to let them grow as fast as nature would permit.

As Ten Years Longer The other survey shows diet applied in a manner more nearly fitting human desires. This was made by Dr. Henry C. Sherman, of Columbia university, whose experiments led him to predict that the average life span can be prolonged to 100 years in the near future by choice of diet.

No nation yet has ventured to apply the known laws of heredity that result in longer life. But the Japanese study suggests this type of heredity is somehow mingled with moderation; that those who inherit their longevity come from families neither very small nor extra large.

Cities Shorten Life This study was made by Dr. Nakayama, a school hygienist. To him the 10,000 reported on climate, circumstances and manner of living, hygiene, tastes and family records.

Living in cities, a tabulation of the 10,000 reports shows, decreases the life span. Urban women are more numerous than aged men. Seaside villages were the most numerous among the habitats of these long-lived Japanese. All villages exceeded all towns for long-lived inhabitants and the towns were ahead of the cities.

The majority of those who rejected were agricultural workers. Most were of medium build but some were corpulent and a few slender. They now go to bed early and rise late. They generally have hot quiet lives.

They are not particular about what they eat or drink. Half of them are drinkers, but the women are all non-drinkers.

AT THE LIBERTY

Maurice Chevalier, in his new picture, "The Way to Love," coming to the Liberty tomorrow.

Sun.-Mon.: Maurice Chevalier in "The Way to Love" with Ann Dvorak and Edward Everett Horton; Bing Crosby in "Just An Echo," Graham McNamee News.

Tues.-Wed.-Thurs: "The Four Marx Brothers in 'Duck Soup'; 'Hollywood on Parade'; Screen Souvenirs, 'Keeps Hauling All The Time' cartoon; Liberty-Observer News.

Fri.-Sat.: "Alice in Wonderland" featuring 22 screen stars; Our Gang Comedy "Wild Posse"; Chapter 9 "Fighting With Kit Carson"; Liberty News Events.

Trading his usual military uniform for that of a guide for a large, prosperous Parisian tourist agency, Maurice Chevalier brings his newest starring vehicle, Paramount's "The Way to Love," to the Liberty Theatre Sunday.

Instead of the ostentatious palaces, high-end night spots and dress-out theatres, gay Maurice takes one into the roof-top dwellings and musical halls of Paris' left bank. With all the fire of his high voltage personality, the French star plays his game of life and love amid settings so familiar to him.

Naturally, as all good guides should do, Maurice shows all the "beauties" of Paris, including some which one doesn't see from the top of a sight-seeing bus.

With the star and Ann Dvorak appear Edward Everett Horton, Arthur Piersen, Mims Gombell, Blanche Frederick, Nydia Westman, John Miljan and Edna Toler.
