The state stores of licensed agencies will be on sale at the stores for \$1, Hoke said. They are not transferable. Non-resident permits, good for three months, will be sold for 30 cents.
Regarding method of purchasing, the official price list carries this announcement:
"Purchasers will find upon entering all state operated stores of the

commission a large glass sample case which will contain sample bottles of all the various lines of liquor for sale in the store.
"Purchasers will make their selections at this sample case, make a note of the code number and price displayed on each bottle and after making their selections will proceed to the order clerk's counter, where an order will be written for the liquor required.
"Permit holders are required to sign their purchase order, stating name, address, permit number and quantity desired, and then submit their permit for endorsement by the vendor. This signature must be identical with signature on permit."
State stores will be operated at all principal towns except Corvallis, which has officially protested establishment of a store there.

Runte announced here Saturday that La Grande's store would probably be the second to open in Eastern Oregon. Mr. Runte is supervisor for Eastern Oregon.

36-Hour/Week Desire Of General Johnson

(Continued From Page One)
here on that date in the first assembly of industrial government, to consider revision and improvement of the NRA program.
The 36-hour week, it is understood, would be accompanied by a 10 per cent increase in minimum pay. Employees now working 40 hours at 40 cents an hour would receive 44 cents for 36 hours or approximately the same total wage, with more men on the payroll.
The more prosperous coded groups may be urged to contribute more, while the present rates are expected to continue for a considerable portion of the "capital goods" industries which supply materials, machinery and equipment for industrial expansion, since they have yet to experience real revival.
The NRA took steps today to meet a growing enforcement problem for local enterprises. It dispatched to the governors of all states a "model" state industrial recovery act, which would make code violations a breach of peace laws.
