Oregon State	7	4	.636
Oregon	4	6	.400
Wash. State	3	7	.300
Idaho	3	8	.273

CORVALLIS, Ore., Feb. 13 (AP) — The Oregon State college basketball team today counted its fourth consecutive comeback victory in the coast conference north division race and hoped for another win here tonight from University of Idaho.

The Beavers gained an all-important notch by defeating the Vandals 40 to 14 here last night. Another victory is vital tonight if the Beavers remain in the running for the conference championship which University of Washington has all but snatched away.

Looking more and more like a well-oiled machine, the Beavers pulled out of an early five to five tie and led 21 to 8 at half-time. The play was fast and crisp in the first half, but the substitutes went in in rougher manner the second chukker.

The Oregonians, defending coast champions, boosted their score to the 40-mark for the first time this season in conference play. The bewildered Vandals were unable to guard them effectively or make any serious scoring threat of their own.

McDonald and O'Connell led the Beaver scoring with nine points each. Greaser scored half his team's points.

### EVERGREEN ROAD SECTION OPENED

THE DALLES, Ore., Feb. 13 (AP) — The 1 1/2-mile section of the Evergreen highway on the north bank of the Columbia river gorge was completed and opened to travel Monday, engineers announced here.

The section was one of the most difficult of the entire route, involving much heavy construction. Work on it started Jan. 10, 1933.

Its completion opens the Evergreen highway from Vancouver to Yakima except for a stretch between Cooks and Underwood. The new unit now has a macadam surface but will be treated with bituminous surfacing this summer.

Proceeds from the play will be used by the league in carrying on its work for the year, including the summer institute at the Wallows lake.

### ELGIN MILL IS GIVEN SPACE IN THE TIMBERMAN

The current issue of The Timberman carries an interesting article about the Ponderosa Pine Lumber Co. at Elgin, Ore., of which W. E. Moore is president. A two-column picture of the mill heads the article, which is entitled: "A Busy Woodworking Plant."

The story follows:

Elgin, Ore., Jan. 15 — Ponderosa Pine Lumber Co., Elgin, W. E. Moore president, is operating 170 28-hour shifts, with enough business on the books to keep the plant operating during the entire month of January, with good prospects for 1934. The plant started from a small beginning in 1925 and has constantly enlarged.

Recently, a 30-foot extension to the factory building was completed, and a 120-foot loading shed was built. The factory building covers an area of 80x170 feet. A dry kiln is the next improvement contemplated. A Play & Egan electric moulder has just been installed. The equipment in the plant comprises Woods, Merchand and other standard tools. The factory has a conversion capacity of 1,000,000 feet per month on two 40-hour shifts. J. W. Adams is general superintendent.

Ponderosa Pine Lumber Co. specializes in shade rollers, cut-up stock, oak glued-up dimension, frames, basket handle fillers, luggage frames, oval automobile curtain slats, panel and standard mouldings and other specialties, including boxes. The standard of refined products manufactured by this plant is of the highest, and its output is absorbed by a comparatively few consistent eastern customers whose requirements are increasing.

Recently a 14-inch rubber conveyor belt was installed, which passes under the cutoff saw and carries the refuse to the fuel house. Through the ability to run the plant continuously, the cut of the local sawmills was absorbed and Elgin had the proud distinction of having no unemployment during the greater part of the year.

S. A. Bruce and Elmer Jacobs are day and night foremen. William Smith is fier. J. W. Fitzgerald is the bookkeeper. Mrs. Moore, who is a very capable stenographer, does her part nobly assisting with the office work. The office floor is laid with maple flooring.

S. A. Bruce, night foreman, spent a number of years with Crane Creek Lumber Co., Willow Ranch, Cal.

Instead of playing to a point score, the games will be in 15 or 15 minute halves, it was announced.

### FRANK KELLER UNDER KNIFE

Frank Keller, of La Grande, underwent a major operation this morning at the Grande Ronde hospital.

### Leaders of Riot At Pen To Face Jury

turnkeys and one a guard, were suffering from murderous knife wounds, inflicted by the convicts. One other convict bore base wounds.

The head:

H. L. Briggs, assistant chief turnkey, stabbed to death.

Wall Turcott, 21, serving five to 20 years for attempted robbery.

Paul Krossa, 22, eight to 10 years for robbery.

Gerald Hill, 19, two and a half to 15 years for grand larceny.

Ernest Altona, 24, five to 10 years for second degree murder.

H. O. (Buster) Clark, 22, 10 to 20 years for second degree murder.

James R. De Long, 23, 10 to 20 years for robbery.

Ernest De Soer, 28, five to six years for robbery.

H. Robert Parks, 29, 2 1/2 years for a statutory offense.

The outbreak, which began shortly after 10:30 yesterday, was being thoroughly investigated today by Warden James M. McCauley and his assistants. The warden has been in office less than a year.

"There was no indication in advance that the break was planned," he said. "We have learned, however, that the men made their knives in the shop where incense plates are manufactured. They evidently burned them in the prison yard, dipping them up Sunday, which is 'hand day.'"

Warden McCauley called the turnkey chief yesterday and the latter answered the phone as a convict pressed a knife against him. However, the warden became suspicious at unrelated portions of the turnkey's conversation and a hurriedly dispatched body of guards was rushed to the walls, and the convicts were seen below. The convicts hesitated, then pushed on, and the guards opened fire, avoiding hitting penitentiary employees held as shields by some of the convicts. The convicts were soon defeated.

### Big Trade War Is Started By British, French

By The Associated Press

Lines were drawn between Great Britain and France today for a trade war of serious proportions.

At midnight an extra duty of 20 per cent was stamped on most French imports by Britain. The duty was in retaliation for French piling down of quotas in British imports to France.

Just before the duties became effective France got in another blow by denouncing Franco-British trade treaties of 1926 and 1927.

Uncle Sam was an "interested observer" in the conflict although commercial officials at Washington said they believed American trade would not be greatly affected, favorably or adversely.

**NO** Luckies don't use the top leaves . . . because top leaves are under-developed . . . they are not ripe . . . They would give a harsh smoke.

**YES** Luckies use only the center leaves of the finest tobacco . . . because the center leaves are the mildest, tenderest, smoothest.

**NO** Luckies don't use the bottom leaves, because bottom leaves are inferior in quality. They grow close to the ground, and are tough, coarse and always sandy.

**Always the Finest Tobacco** and only the Center Leaves

NOT the top leaves — they're under-developed — they're harsh!

The Cream of the Crop "The tenderest, mildest, smoothest tobacco"

NOT the bottom leaves — they're inferior in quality — coarse and always sandy!

Lucky Strike presents the Metropolitan Opera Company

Starring 50 to 60 of the Eastern Standard Time, your Paul and Sara Novakos of NBC, happy voices will broadcast the Metropolitan Opera, Company of New York in the complete Opera, "Faust."

In making Lucky Strike, we actually discard most of the tobacco plant—because we select only the center leaves—and for these center leaves farmers are paid a higher price. We do not use the top leaves—because those are under-developed. Nor the bottom leaves—because those are inferior in quality—tough, coarse and always sandy. But these center leaves are the mildest, silky, smooth, tender. And so only these center leaves are used in making Luckies the fully packed cigarette—so round, so firm—free from loose ends. The tobacco doesn't spill out. That's why Luckies draw easily, burn evenly—and are always mild and smooth . . . And then, too—"It's toasted"—for throat protection—for finer taste.
