## Women's Clubs To Hold Convention

Of interest to clubwomen throughout the state is announcement of May 7-10 as dates for the biennial convention of the Oregon Federation of Women's Clubs, which will be held this year in Roseburg. The Roseburg Women's club will be hostess group for the session and its president, Mrs. C. S. Heinline, is serving as general convention chairman. Working closely with her will be Mrs. J. O. Holt of the Monday Book club of Eugene, who has been appointed program chairman.

More than usual interest attaches to the convention this year since an entire slate of new officers will be elected, the present board having been given the usual courtesy reelection at the convention held in Portland in 1932. To date, Mrs. W. S. Nicholson of Marshfield is the only candidate in the field for the state presidency, although it is rather expected that the office will not go uncontested and that at least one other candidate will announce herself before the convention.

## Orders Heavy For New De Soto Car

"Never within the last decade has a new automobile received such interest on the part of the public as the new Airflow De Soto," says information from factory headquarters to M. J. Goss, local dealer. "The factory is already sold out through April, and production is being stepped up as rapidly as possible."

"The interest in the new Airflow cars leads the manufacturers to believe that our advanced design will have a profound effect on the automobile industry in years to come," says Mr. Goss. "Our new all-steel unit body and frame, for instance, with the frame and body one, has received the acclaim of engineers, and it has been freely predicted that it will have a direct influence on future automotive structural design."

The Freshest Fruits and Vegetables a Store Sells Are Those that come in cans

As soon as they are picked, they start to lose their flavor and food value. That's why Red & White Fruits and Vegetables are hermetically sealed within one to three hours after they are picked. All the goodness, the food value, the vitamins that nature put into them are retained in the sealed cans in which they were cooked. Canned Foods Are the Finest and Safest Which Come to Our Table
