

New Plan to Realign Oregon's Counties Advanced by Dr. Smith

EUORNE, Ore.—A new plan for realignment of Oregon counties, which would cut the number from 39 to seven, and change them from political units to those based on natural and economic factors, is proposed by two University of Oregon experts. Dr. Warren D. Smith, professor of geography, and Alfred L. Lomax, professor of business administration, in an article published in the current issue of the Commonwealth Review, university publication.

The article is the first of a series which will present the results of an extensive study made by the two faculty members on this subject. Dr. Smith, who is nationally known as a geologist as well as a geographer, has an intimate knowledge of the physical conditions of all sections of Oregon, while Professor Lomax has done considerable research along economic and business lines in the state.

"The radio, telephone and telegraph, which make for rapid communication, the automobile on improved highways, and the airplane which greatly shortens distances, have disqualified the little county unit and its court house of horse and buggy days as an efficient instrument for county government," the article says.

"Boundaries of these social units should be governed not by artificial arbitrary decree but by the kinds of soil, climate, geologic history, topography and hydrography. The seven 'provinces' proposed, in accordance with the factors outlined, are:

Coast province. This would extend from the ocean to the summit of the coast range, but in the southernmost portion would follow the eastern boundary of Curry county. This province would stretch the full length of the state. Should this be deemed too large, it could be divided into north and south portions.

Klamath province. Its northern

At the close of the meeting Mrs. Miles served dainty refreshments in keeping with Washington's birthday.

HOW WOMEN CAN WIN MEN AND MEN WIN
The Favor of Other Men
Unless two pints of bile juice flow daily from your liver into your bowels, your food decays in your bowels. This poisons your whole body. Movements get hard and constipated. You get yellow tongue, yellow skin, pimples, dull eyes, bad breath, bad taste, gas, distaste, headache. You have become an ugly-looking, foul-smelling, sour-thinking person. You have lost your personal charm. Everybody wants to run from you.

But don't take salts, mineral waters, oils, laxative pills, laxative candies or chewing gum and expect them to get rid of this poison that destroys your personal charm. They can't do it, for they only move out the tail end of your bowels and that doesn't take away enough of the decayed poison. Cosmetics won't help at all. Only a free flow of your bile juice will stop this decay poison in your bowels. The one mild vegetable medicine which starts a free flow of your bile juice is Carter's Little Liver Pills. No calomel (mercury) in Carter's. Only fine, mild vegetable extracts. It will bring back your personal charm to win men, start taking Carter's Little Liver Pills according to directions today. 25¢ at drug stores. ELGIN RESIDENT PASSES TODAY

John Woods, who has been ill at the Hot Lake sanatorium for a long period of time, died this morning. Mr. Woods, a resident of Elgin for the last 27 years, will be buried in the family plot in Stella, Neb., the body to be forwarded east by Snodgrass and Zimmerman.

The body will be accompanied by Linkwood Woods, of Elgin, brother of the deceased.

You Ain't Seen Nothin' Yet, Says Gen. Johnson
(Continued from Page One)

"Under specific orders from the president, we are reorganizing to enforce the penal sections of the act," he said, first.

The other warnings were in substance as follows:

"That the country faces this spring 'the worst epidemic of strikes in our history,' that company unions in 99 out of 100 cases involve illegal 'interposition' by employers.

That with the recent supreme court decision upholding the New York state emergency milk law, the administration has dropped all hesitation, and is ready to use the powers of the industrial law to the limit, if opposition forces it.

Johnson let Donald Richberg, general counsel of NRA, present the last point in a preliminary speech, which, in non-legal language, presented sweeping implications of the decision.

Constitution hall's three thousand or so occupants were hushed and attentive as the counsel, after explaining, drawled:

"And that should sink a lo-o-o-ng way home. I want to submit it to the particular attention of some eminent counsel who come around and say they will cancel their codes if they don't get just what they want. It may be—that that act doesn't lie in their power."

Johnson backed that warning with a few preliminary snaps at "industrial hooligans" who "forget that the old order changeth."

But the keynote of his address was a conciliatory exhortation for industry to rise to the opportunity given it by President Roosevelt.

WINS FAVOR BY ITS DIFFERENT, BETTER FLAVOR

HOW AND WHY?

Because it is the evaporated milk with the cooked taste largely eliminated.

Morning Milk proves that evaporated milk can be at once wholesome, absolutely pure and inviting and satisfying in flavor.

But prove this fact for yourself. Buy a can of Morning Milk at your grocer's, open it (like you'd open a can of fruit) and taste it from a tablespoon or tumbler.
