## CANCELLING OF AIRMAIL IS DEFENDED

(Continued From Page One)

10 army fliers and virtual destruction of the airplane industry by Senator Robinson (R., Ind.)

In his reply, the Democratic Robinson said that charge was not justified.

"In the view of the president, when it became apparent that the contracts for carriage of the airmail were fraudulently entered into it became his duty to cancel them," Robinson said.

Addition of two new airmail routes to those operated before the general contract cancellation is contemplated by the post office department.

Army flying of the airmail, suspended by President Roosevelt, has not yet been resumed.

Harleeno Branch, second assistant postmaster general, told the house post office committee today that lines from Chicago to Spokane and from Billings to El Paso were planned under the \$12,000,000 appropriation asked for the fiscal year starting July 1.

Practically all the old routes would be maintained, he said.

"I am quite sure," he said, "that at least 95 per cent of the routes in operation on February 19 would be included in the air map we make up."

Secretary Dern today named a special committee of aeronautical authorities, including Orville Wright, Charles A. Lindbergh and Clarence Chamberlin, to investigate the army carrying of the air mail.

The commission will be authorized to call all witnesses and take any testimony it may deem necessary.

The new mail schedule, to be flown after the war department "released" army fliers from a stay-on-the-ground order, is as follows:

Boston to New York; New York to San Francisco via Chicago and Salt Lake City; New York to Jacksonville; Washington to Atlanta; Chicago to Dallas via Kansas City and St. Louis; Salt Lake City to Seattle; Salt Lake to San Diego via Los Angeles; Cheyenne to Denver; and Chicago to St. Paul.

Other routes may be added later.

majority of graduates last year have positions this year, a fact which the latter finds very gratifying, in spite of the fact that it has been stated that the number of students has increased greatly while the number of schools has been diminished through lack of funds.

## WHEELER SILVER BILL 'COMPROMISE'

WASHINGTON, March 13 (AP)—Senator Wheeler (D-Mont.) Monday introduced what he termed a "compromise" bill to authorize government purchase of 50,000,000 ounces of silver a month until the white metal reached the ratio of 16 to 1 with gold.

Explaining he greatly preferred his original bill for free and unlimited coinage of silver at 16 to 1, Wheeler said a statement he was not unmindful of the prejudice existing "in the minds of many who look upon bimetallism as synonymous with Bryanism and who contend that he would be flooded with silver."

"In order to test the sincerity of those who have used this as an argument against the rehabilitation of silver," he said, "I am offering this bill in the nature of a compromise with the hope that ultimately congress will see the light and favor my bill for the free and unlimited coinage of silver."

The new bill would authorize purchases up to 1,000,000,000 ounces at prices to be determined by the secretary of the treasury, but purchases would be suspended immediately the 16 to 1 ratio was reached.

Silver certificates with full legal tender status would be issued against the bullion purchased.
