

Few Changes Made In Workmen's Law

SALEM, Mar. 15 (AP) — Rate changes in the workmen's compensation law for the current year will be very slight, Albert R. Hunter, chairman of the state industrial accident commission announced Wednesday. The changes will be mailed to all employers in hazardous industries within the next few days. The law provides they become effective July 1.

A Word to the Tea-Wise. If you know good tea—if you enjoy it deeply—if the fragrant freshness of choice leaves means something to you—if you like a full-flavored brew without bitterness—if your Tea is a ceremony—try Schilling Tea—just once—just one cup!

NO "WINTER" IN LA GRANDE IN 1933-34

(Continued from Page One)

La Grande history. On Dec. 23 the minimum was 49 above, which tied the all-time record for the highest December minimum here. Moisture above normal, totalling 3.54 inches, five inches of snow, which fell in no more than two-inch falls, melting quickly. Buttercups reported in bloom late in December, grass growing and ground was workable. Highest maximum was 59 above on Dec. 22, lowest minimum 19 above on Dec. 1. Mean temperature 40.9 degrees, 8.4 degrees above normal. Mercury below freezing point only seven days. Lowest maximum 33 above. Mean maximum 47.3, mean minimum 34.3 degrees.

Jan. 1 to Feb. 1. Only one month in previous local history had less snow. January, 1934 total was one inch. New record for maximum temperature made Jan. 26 when mercury went up to 60 above. Buttercups continued in bloom, tulips, other plants came up. Pansies began blooming middle of month. January also was the warmest January on record in La Grande, with the mean temperature only slightly below the normal for March. Mean temperature was 39.4 degrees, 9.4 degrees above normal. Coldest weather 24 above on Jan. 6. Total precipitation 2.40 inches, slightly above normal. Lowest maximum 37 above, highest minimum 40 above. Fourteen days found minimum temperatures below freezing point.

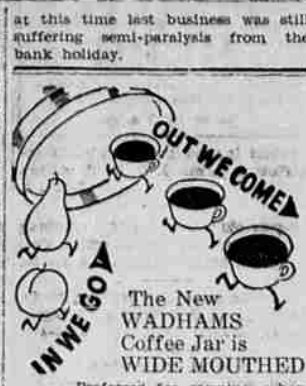

Feb. 1 to Mar. 1. The mean temperature stands at 42.9, which is 3.2 degrees above January's mean. The mean maximum is

52.9 degrees, the mean minimum 32.8 degrees. Rainfall was .94 inches below normal, and only nine days had a minimum below freezing point. The high for the month was 62 above and the low 25 above. No snow fell — a new record for La Grande.

The weather was like April throughout February, with all conditions spring-like. First cherry blossoms were reported Feb. 24, more than six weeks earlier than normal. Farmers were sowing wheat late in the month, and the winter-sown wheat was in the best condition in history. The month, like December and January, was the warmest February in La Grande history.

Mar. 1 to Mar. 15. With the month half gone, the valley is in the grip of a warm spell like late May or early June, with the mercury above 70 three days in succession, and fruit trees in general bursting into bloom. Conditions in general are from a month to two months advanced over normal, and precipitation remains less than normal for the first two and a half months of the year.

The mean temperature for the first 15 days was 45.5, the mean maximum temperature 57.3 and the mean minimum 33.7 degrees. Temperatures ranged from 31 above to 74 above, with only two days so far this month with the mercury below freezing.

The New WADHAMS Coffee Jar is WIDE MOUTHED — Preferred for canning when emptied of its precious contents of delicious coffee—Saving you 10c on canning jar costs—assuring you better coffee by ANY method. Ask your grocer.
