Dennis Reports Good Gains Along Coast

The reason for the increase, he said, is due in part to the recent interest rate reduction from 6 to 5 1/2 per cent. Farmers are also realizing that money can be saved by securing loans on a budget basis. The association will advance money to the farmer only when he needs it, if the farmer wishes, and the borrowers don't begin paying interest charges until they start using the money, according to Mr. Moore. County agents are able to give additional information to any farmer not familiar with the procedure of making application.
