Will Give Two Talks On Orchard Pests
(Continued From Page One)

among the apple orchards. This meeting will be held at the Wilson farm beginning at 1:00 p. m. the purpose being to discuss the spray program with the idea that at least two cover sprays must be applied. Any other problems of apple growers will also be discussed during the afternoon. All those interested are invited and urged to attend either one or both of these meetings tomorrow, according to Mr. Avery.

Operates for less—THAN ANY FORD EVER BUILT

THE SMART FORD V8
The smartest car that Ford has ever built is the smartest buy your budget has ever seen. The new Ford V-8 is the most economical car that Ford has yet produced.
That big Ford V-8 engine, which is capable of a generous 80 per. is miserly when it comes to fuel. It consumes less gasoline than many engines with less cylinders and less power.
Aluminum-alloy pistons minimizing carbon formation. Tungsten steel valve seat inserts virtually let you say "good-bye forever" to valve grinding.
The Ford V-8's dependable springs—which give you free action on all four wheels—have shackles that require no lubrication. And the whole car is so reliably built that you will never be plagued with repair bills.
Before you buy any car at any price, drive the Ford V-8.
