RAINFALL CHEERS SOME DISTRICTS IN MIDDLE WEST

CHICAGO, May 23 (AP)—The drought was checked, partially at least, in some areas of the parched portions of the central west today. Farmers of parts of Northern Illinois and in some sections of Wisconsin hailed with joy downpours that broke a wave of intensive heat, and brought aid to crops, while residents of cities in the rain area welcomed the precipitation as a relief from a rapidly growing fire hazard.

Nearly a half inch of rain fell last night in the Chicago area, accompanied by winds and thunderstorms that sent the temperature tumbling from 90 to 67. A fifty-mile an hour wind whipped Chicago, damaging several unfinished buildings at the Century of Progress grounds.

Rains ranging upwards of one inch fell in some sections of Wisconsin yesterday and last night.

Rain was also reported in Detroit, Grand Rapids and Sault Ste Marie, Mich., as well as St. Joseph, Mo., Toledo, O., and Laporte, Ind., but on the whole the showers were not regarded by crop experts as sufficient to salvage substantial amounts of crops that have been burning for days beneath a relentless sun.

In Nebraska, one of the hardest hit of the rainless states, there were a few light showers that helped bring relief from the intensive heat, but which gave little help to the farmers.

Showers were predicted in parts of Illinois, Indiana, lower Michigan, Missouri and Kansas today, but no general downpour was in sight.

F. R. APPROVES LEGISLATION IN MESSAGE

and such additional sums annually as are needed. The secretary of the treasury would be "authorized and directed" to purchase silver at home and abroad at such rates, times and terms as he may deem reasonable and most advantageous to the public interest. Purchases in the domestic market would be limited to 50 cents an

ounce on stocks held on May 1. Whenever the market price exceeded the monetary value of the metal or when the monetary stocks were greater than the 35 per cent ratio, the secretary could sell silver. He would be further authorized and directed to issue silver certificates in a face amount not less than the cost of all silver purchased.

There would be maintained in the treasury as security for the silver certificates outstanding an amount of silver bullion and standard silver dollars of a monetary value equal to the face amount of the certificates. All silver certificates would be legal tender and redeemable on demand in standard silver dollars and the secretary would be authorized to coin silver dollars for such redemption.

He would be further authorized, with the approval of the president, "to investigate, regulate and prohibit, by license or otherwise, the acquisition, importation, exportation, or transportation of silver."

A violator of the regulations would be subject to a fine of \$10,000 or 10 years imprisonment.

Under the nationalization clause, the president, when in his judgment action was deemed necessary to regulate the value of money, "may" by executive order require the delivery to U. S. mints of "any or all silver by whomsoever owned or possessed."

Such silver would be coined or otherwise added to the monetary stocks and paid for in standard silver dollars or their coin or currency at the monetary value of the silver less deductions for seigniorage, brassage, coinage, or other mint charges.

SOPH TAKES 440 MARK FOR HIDE IN SOUTHWEST

HOUSTON, Tex. (AP)—Although only a sophomore, "Lucky" Brothers of San Angelo, track sensation at Rice institute here, already has bettered the southwest conference record for the 440-yard dash both in practice and in a dual meet and is ranked as one of the fastest quarter-milers in the south.

Brothers, who attained considerable recognition in high school, breezed the distance in 48.5 seconds in a meet with the University of Texas despite the fact that he was not "pushed." The conference record is 48.8.

STATION STEERS TOP THE MARKET

UNION (Special)—Getting a price of \$0.50 per hundred, Dale Richards topped the market at Portland last week with a shipment of Hereford steers which had been fattened on the experimental lots at the Eastern Oregon experiment station. This is a new high price level for this year, it is stated. The steers were bought by a packing plant at Salem. Mr. Richards accompanied the shipment to Portland, Mrs. Richards and daughter also going for a brief visit in the Willamette valley.

OREGON TOSSERS TAKE WILD GAME

PULLMAN, Wash., May 23 (AP)—After taking a lead of five runs in the first inning and adding one in the second before Washington State got going and evaded the score, Oregon won a wild 9-8 game here yesterday. The winning run came in the ninth when Second Baseman Kock walked and came home on two sacrifice hits.

AND INSIDE OF THE BIRD A \$5 GOLDPIECE, MAYBE?

CENTREVILLE, Ala. (AP)—District Game Warden Ad Lightsey vows this story is true: Two men were hunting quail in his territory and one shot a bird that fell into a creek. Palling to find it, the hunters walked on, leaving their dog sniffing at the water's edge.

Pretty soon they were overtaken by the dog with a two-pound trout in its mouth. Inside the trout they found the lost bird!

scriptions and cash donations, which ever appeals most to the donor, will be sought, and no matter how small the sum, it will be gratefully accepted. Capt. Rody said today.

Service clubs and lodges of La Grande already have pledged their wholehearted co-operation in the campaign, and a general canvass of both the business and residential districts is being arranged for, as well as solicitation into other sections of the county.

All the funds realized from the drive will be used to promote the work of the Salvation Army in this county.

specting the mercury, had turned and started for the door when the explosion occurred. He was hurled through the door, and the force of the blast blew off the front door 50 feet away also. It is reported. A two-burner gas appliance was used in the room to ripen the bananas, it is said, and one theory is that one of the burners went out, and that gas leaked into the room, to become ignited while Brenner was inside.

Brenner came here only recently from Pendleton, where he has a wife and two children. He has a sister here, Mrs. Hugh Campbell, of 1305 Pennsylvania avenue.
