

STOCKS RESUME ADVANCE TODAY

NEW YORK, June 5 (AP)—Stocks resumed their advance today and numerous issues pushed up fractions to around 3 points. The further upturn was attributed largely to technical factors, improvement of the labor situation and expectancy of favorable Washington developments. The close was firm. The trading volume expanded to approximately 750,000 shares.

HARVARD MARKSMAN TAKES A HEAVY TOLL

KINGSTREE, S. C. (AP)—A 10-year-old negro yard boy for a Kingstree family in the champion bird killer of this section—through no merit of his own. Firing a gun for the first time in his life, he aimed at a hawk and killed 10 ducklings and a hen and wounded a guinea. The hawk wasn't scratched.

5 La Granders Inquire About Summer School

UNIVERSITY OF OREGON, Eugene, Ore. (Special)—Among those from La Grande who have inquired about the University of Oregon summer sessions are Beatrice Younger, Mrs. Kate S. Hall, Mary A. Reusser, Mrs. C. A. Kopp and C. W. Fossey. A great deal of interest has been shown in the University of Oregon summer sessions in Eugene and Portland, which will open on June 18 for the six weeks term. A number of featured courses will be offered, and several outstanding educators from other institutions have been added to the regular staff of the university. It is announced by Alfred Powers, director of summer session.

In the Portland session, courses in education will be given by Dr. Jay C. Knobe of the University of New Mexico and regular members of the university faculty. Dr. Merle Curti, of Smith College will offer courses in American history and Professor Bernard Hinshaw, of Illinois Wesleyan University, will teach classes in drawing and painting. The work in sociology will be under the direction of Dr. Carroll D. Clark, head of the department of sociology at the University of Kansas. Courses will also be available in the following departments: anthropology, bacteriology, botany, chemistry, economics, English, French, German, health education, journalism, music, philosophy, physical education, physiology, political science, psychology and public speaking. Classes will be held in Lincoln High school.

Public school teachers and others interested in aiding children who have learning difficulties will have the opportunity of taking part in the remedial teaching clinic to be held in connection with the Eugene summer session. The clinical school will be conducted by Dr. B. W. DeBusk, of the university faculty, assisted by Miss Lillian Rayner, of the Los Angeles public schools.

ELECTRICAL FENCE

LINCOLN, Neb. (AP)—An electrically charged fence is suggested by M. P. Brung, instructor at the Nebraska Agricultural college, as a good thing to try on fractious livestock. Carrying only enough electricity, he said, to shock rather than to harm, a strand or two of smooth wire on posts as far as four rods apart will keep man or beast at respectful distance.

BIG ONION CENTER

LAREDO, Tex. (AP)—The Laredo district, which a few years ago became the largest shipping center in Texas for Bermuda onions, shipped more than half the 1934 Texas crop. Nearly 1,100 carloads were shipped in the first four months of the year.

THIS CURIOUS WORLD

By William Ferguson

BECAUSE OF MAN'S PERSECUTION, HAS CHANGED FROM A LAND ANIMAL TO A SEA ANIMAL, WITHIN THE LAST CENTURY.

THE sea otter once lived on land and hunted on shore and in the sea for its food. Then came the white man, who hunted the otter unmercifully for its fur. Now the animal spends its whole life at sea—eating, sleeping, and producing its young among the ropes of sea kelp.

Football Pioneer Dies In Easton

EASTON, Pa., June 5 (AP)—Parker H. Davis, football pioneer, coach and for years nationally recognized statistician of the game, died today at his home here. He would have been 63 years old July 18.

English Derby To Be Run Tomorrow

LONDON, June 5 (AP)—The derby, greatest of English flat-races, will run over the famous course at Epsom Downs tomorrow amid the familiar scenes that always mark this prime cockney holiday of the year. The picnic indeed already has begun. The downs are thickly studded with the castaways and other temporary dwellings of hundreds of Gipsies, showmen and other hangers-on.

BOOTLEG BOATS POPULAR; LEGALIZED FIGHTS FLOP
DALLAS, Tex. (AP)—Before boxing was legalized in Texas, large crowds attended cards staged by surferage of authorities but without benefit of statute.

Now that the sport has legal sanction, attendance has dwindled to the point where prominent promoters at Dallas, Galveston and Fort Worth have announced their withdrawal from the field.

Well-known fighters, brought to Texas for bouts in recent weeks, were unable to attract enough paying customers to meet their guarantees. A Dallas card, rated a good one, was called off when fewer than 100 persons laid their money on the line.

CARNERA LISTED MONEY FAVORITE

NEW YORK, June 5 (AP)—The bookmakers list Primo Carnera a pronounced favorite to whip Max Baer June 14 and retain his world's heavy-weight championship. Jack Doyle, prominent betting

commissioner, quoted 3 to 5 against Carnera and 7 to 5 against Baer with plenty of Carnera money.

OMAHA SHEEP

OMAHA, June 5 (AP)—(U. S. D. A.)—Sheep: 5,000; slow, to 25c lower; good to choice natives \$9.00 down; range and fed Californians held around that figure; medium to good feeding lambs held above \$6.00.

If You Are Sick--

Chiropractic is not limited as a health service to any particular type of ailment or kind of sickness. It is comprehensive in its scope. Some of the many ailments and kinds of bodily disease, for which Chiropractic has established an impressive record of success in restoring health are:

Adenoids, Appendicitis, Asthma, Bronchitis, Child Ailments, St. Vitus' Dance, Colic, Constipation, Diabetes, Eye Troubles, Gall Stones, Gout, Hay Fever, Headaches, Heart Trouble, High Blood Pressure, Infantile Paralysis, Kidney Trouble, Liver Trouble, Lumbago, Neuritis, Rheumatism, Scleritis, Skin Eruptions, Spinal Curvatures, Stomach Trouble, Tonsillitis.

The Chiropractor has received comprehensive and careful instruction which enables him to determine the point of nerve pressure in the spine, caused by subluxated vertebrae, and to make proper adjustment of such subluxated vertebrae so that normal transmission of nerve energy is restored. Renewed health is the natural result.
