Here's why LUCKIES DO NOT DRY OUT

Luckies are made of only the clean center leaves—the mildest, best-tasting tobaccos. And then, "It's toasted" for throat protection. Every Lucky Strike is round, firm, fully packed—no loose ends. That's why Luckies "keep in condition"—do not dry out. Luckies are always in all-ways kind to your throat.

# "It Doubled the flavor of my STRAWBERRY JAM!"

THESE RIPE STRAWBERRIES TASTE EVEN BETTER IN JAM WHEN I MAKE IT THE CERTO SHORT-BOIL WAY!

When Mrs. Brown first tried Certo, she couldn't believe how much better jam tasted!

WHY don't you go to your grocer tomorrow—get some ripe strawberries, sugar and Certo—and put up a batch of wonderful Strawberry Jam? And you can't put up too much!

More than four million jam and jelly makers are now using Certo—and these include most of the State Fair Champions all over the country. They will tell you that Certo ought to give you half again more glasses from the same fruit, and allow you to finish it in one-third the usual time. They will tell you, too, of the extra flavor that you get in any jam or jelly made with Certo.

When you use Certo, you boil your jellies or jams, only a few minutes. The fruit juice does not boil away. And you never get that "boiled-down" taste that comes with long, tedious boiling. Certo is sold by all grocers. A product of General Foods.

HOW TO MAKE THE BEST STRAWBERRY JAM

Certo Laboratories report this recipe best for use with 1934 berries. See also Special Strawberry News below.

4 cups of fresh prepared fruit  
7 cups of hot sugar  
1/2 lemon  
1/2 bottle Certo

To prepare fruit, grind about 2 quarts ripe berries or crush so that each berry is reduced to pulp.

Mix sugar, prepared fruit, and lemon juice into large kettle, mix well, and bring to a full rolling boil over hottest fire. To avoid foaming, 1/4 teaspoon butter may be added. Stir constantly before and while boiling. Boil about 4 minutes. Remove from fire and stir in Certo. Pour quickly. Paraffin at once. Makes about 10 glasses of third ounces.

SPECIAL STRAWBERRY NEWS!

Read carefully before making Strawberry Jam

1934 will be a good strawberry year. Plan to start your Certo jam cupboard with the first luscious strawberries. This year we've had unusual weather conditions and fruits may vary more widely than usual in moisture content. The Certo laboratories recommend that for strawberry jam you boil the fruit and sugar mixture of 1934 berries four minutes instead of one—and for even better results and keener flavor, add the juice of half a lemon. (Recipe above.)
