Scriptures, by Mary Baker Eddy: "As the children of Israel were guided triumphantly through the Red sea, the dark ebbing and flowing tides of human fear—as they were led through the wilderness, walking wearily through the great desert of human hopes, and anticipating the promised joy—so shall the spiritual idea guide all right desires in their passage from sense to Soul, from a material sense of existence to the spiritual, up to the glory prepared for them who love God, Stately Science passes not, but moves before them, a pillar of cloud by day and of fire by night, leading to divine heights" (p. 569).
