

CASTER PITCHES BEAVERS TO 1-0 WIN OVER SEALS

By The Associated Press
The tougher going the better Jack Lohr's Los Angeles champions like it.
They fought the Seattle Indians on even terms for 15 1/2 innings last night and then forged ahead to win 4-3 when Pitches' Bill Radonka threw wild in the last of the 16th to let Bob Matlock Angel shortstop, score the winning tally. Howard Craighead and Radonka, who relieved him at the end of the 12th allowed the win-

ners only six hits in the long tussle. Frank Demaree, Angel centerfielder, walloped a homer in the ninth to lift his league leading total to 28. His long blow scored two men ahead of him and tied the count.
George Caster, ace of the Portland hurling staff, provided the night's other notable performance, blanking San Francisco 1-0 with three bingles. The Beavers' only run came in the first inning when Steve Corcoran, second sacker, tripled and then went home on George Burns' infield single.
Oakland dropped the Mariners a full 16 games behind the Angels by turning back the Reds' Joe the second time in a row, 5-1. The Oaks collected two runs off Bob Holtz, Missoua rookie tomer, in the opening by Lelloy Anton; Stanley Keyes, Bill Radonka and Ernie Kelly's sacrifice. Sacramento didn't even have to

THIS CURIOUS WORLD

By William Ferguson

DEW PONDS, BUILT ON THE DOWNS OF ENGLAND, FURNISH A NEVER-FAILING SUPPLY OF DRINKING WATER FOR SHEEP, EVEN THOUGH NO RAIN FALLS FOR MONTHS! THE WATER LEVEL IS BELIEVED TO BE MAINTAINED BY CONDENSATION OF ATMOSPHERIC MOISTURE.

TREATY OAK, SOUTH BEND, IND., UNDER WHICH LA SALLE DREW UP A TREATY WITH THE INDIANS, IN 1681, STILL IS STANDING.

A MALLARD DUCK HAS NESTED EVERY YEAR SINCE 1927 IN A BOX ON THE ROOF OF A BARN AT RAINBOW'S END GAME REFUGE, SHERIDAN COUNTY, NEBRASKA.

IN November, 1927, Mr. Keller, proprietor of the Rainbow's End Game Refuge, placed a Biological Survey leg band on the mallard which nested on top of his barn. Last year a band was added to the other leg, and hunters are asked to report to the survey should they bring down this famous bird. The numbers are 255114 and A5041192.

A Topsy Turvy Tidbit

A GOOD thing is a good thing no matter how you look at it, as the artist said to the woman who had hung his picture with the bottom where the top should have been. A good cake is a good cake even when it is standing on its head. A better one, some people think. That's why upside-down cake was invented.

Head First
For that matter there are other desserts that are made in reverse, that is, with the ingredients going into the pan in the opposite order of their appearance at serving time. Many fancy up-side-downs are made in this way. Spanish Cream, up-ended in the refrigerator, obligingly separates itself into custard and jelly. In the case of the up-side-down cake, the fruit you use contributes its flavor from the bottom during baking. But in the end, it comes out on top.

Peach Up-Side-Down Cake
Many cook books tell you how to make pineapple up-side-down cake. But here's a tested recipe for lovers of the peach. It's quick and simple, and "luscious" is the only word to describe the result. Peaches are peaches no matter how you look at them.

Peach Up-Side-Down Cake: Melt a quarter of a cup butter in a deep cake pan or large heavy skillet, add a quarter of a cup sugar, and stir over a low fire until sugar is melted but not burned. Pat out evenly in the bottom of the pan and cover with the well-drained contents of one No. 2 1/2 can of peach halves, round side up. Beat two egg yolks well, add one cup sugar and beat creamy. Sift a cup and a half pastry flour, two teaspoons baking powder, and half a teaspoon salt. Add them to the first mixture alternately with half a cup milk. Add a quarter of a cup melted butter, and fold in the two stiffly-beaten egg whites. Pour this batter over the peaches, and bake in a moderate—375 degree—oven for about thirty minutes or until cake is done. Turn out at once, upside down. Serve warm with whipped or plain cream. This serves eight to ten persons.

Barring Drouth-Starved Cattle

Minnesota has called out its national guard to enforce an embargo on shipments of cattle from drouth-stricken sections into the state. Militiamen are patrolling southern and western borders to prevent influx of stock for grazing and feeding. Here is shown a guard detail on duty on a highway 15 miles east of Sioux Falls, S. D.

CITY COMMISSION MEETS WEDNESDAY

Financial statement for the week ending June 16 was presented to the La Grande city commission at its regular meeting last night in the City Building.
Receipts totalled \$1321.63, and disbursements totalled \$1205.32. A balance of \$112,198.32 was reported, divided as follows: La Grande bank, \$8991.82; Portland bank, \$1425.54; cash, \$522.91; and warrants, \$958.09.
All members of the commission were present at the meeting. Permission was granted to the Perkins Motor Co. to move two gas tanks to 4th and Adams streets. A permit was granted to S. A. Gardiner for a soft drink stand, but the commission refused to recommend the establishment for a beer license.

An artificial fountain known as "Andrew's geyser," which shoots a stream of water about 250 feet high, can be seen at 17 different places from trains climbing the Hike Ridge mountains between Old Port, N. C., and Hightop, N. C.

The word "mooey" is said to be derived from the Roman "moeta," the name given to their silver by the Romans because it was coined in the temple of Juno Moesta, 69 B. C.

Would you bake a new potato?

A new potato and a winter potato are both potatoes—but you prepare them differently. Also, drip coffee and percolator coffee are both coffee—but you prepare them differently, using two different kinds of coffee. Here's the reason.

In a **Drip Coffee Maker**, boiling water drips **only once** through a coffee specially prepared to yield its flavor **quickly**. While in a **Percolator**, the water continues to pass **many times** through a coffee prepared to yield its flavor **slowly**. The same coffee can be used for both methods, but like a "jack-of-all-trades" it is "master of none"—neither drip nor percolator. In one or the other, little things happen. It's a little weak, or a little strong, or a little cloudy, or it has a little less flavor. It's these little things that make or mar good coffee. Be sure to use the correct coffee for each method.

Your grocer has two Schilling Coffees, identical in flavor, but each is specially prepared for its purpose—each one different in blend, roast and grind.
