AGAINST LAW TO HAVE FAWN IN POSSESSION

State policemen today pointed out that it is unlawful for anyone to have fawns in their possession. They said that there have been a few cases of finding fawns in the brush in the hills, with the mother deer absent, and that they have been brought in.

The law provides it is unlawful at anytime to hunt for, or have in one's possession any beaver, female deer, spotted fawn or deer without forked horns, or mountain sheep, or any portion thereof, except for scientific or breeding purposes as elsewhere defined by law.

KNEE-ACTION

tops a 22-year record of engineering progress that makes Chevrolet the best riding car in the low-price field

Year after year, it's been the same story: Chevrolet FIRST with the NEWEST and BEST! Chevrolet leading—others following. Chevrolet out in front with the latest proved advancements. Self-starter! Sliding gear transmission! Streamlined design! It was Chevrolet aggressiveness and progressiveness that forced all low-priced cars eventually to adopt these and other major improvements. And now, this year, comes the climax of Chevrolet's engineering leadership: the Knee-Action ride! This newest of motoring sensations is a marvel of smooth, easy, gentle motion. No other ride in the world can even compare with it. It makes Chevrolet far and away the best riding car in the low-price field.
Have you noticed how America has taken to the Knee-Action ride? In the first 6 months, demand for Chevrolet cars went production to the highest total attained by any automobile during 1934.
