ROOSEVELT WILL VISIT PORTLAND THIRD OF AUGUST

WASHINGTON, July 13 (AP)—President Roosevelt plans to land at Portland, Oregon, on his return to this country from his Hawaiian cruise. The White House said this had been approved among the plans for his trip back east.

Marvin H. McIntyre, a secretary to the president, said the cruiser Houston, on which the president is making his trip, will arrive at Portland the morning of August 3.

The president and his party will leave immediately for an inspection trip to the Bonneville dam in the Columbia river between Oregon and Washington, where several hours will be spent. They will leave the dam late in the afternoon for Soap Lake, Washington, by the way of Spokane, arriving on the morning of August 4.

Then they will motor to Coulee before leaving late the same afternoon for Belton, Montana. The president's train will be routed back through Spokane, passing through there in the evening.

At Belton, President Roosevelt will detain for a motor trip through Glacier National park.

Early on the morning of August 6 the president will entrain at Glacier Park station for Glasgow, Montana, to motor to the site of the proposed Port Week dam for an inspection of that project.

Leaving Glasgow that evening, the president's next stop will be at Devil's Lake, N. D., to motor through that region for the purpose of studying the water situation.

In Washington

By Herbert Plummer
WASHINGTON — Senator Hiram Johnson's decision to retain the republican label in his attempt to be re-elected to the senate this fall came as no surprise to Washington political observers.

For the past few months word has been drifting in from the Pacific coast that the veteran progressive republican will be able to win the G. O. P. nomination handily.

For a while there had been some doubt of H. Johnson and his advisers are known to have given considerable thought to the question of party affiliation.

California election laws permit a man to run in all the party primaries at the same time. It is possible for a candidate to win the Democratic, Republican and Progressive nomination in the primary of the party to which he is officially affiliated if his name is to go on the general election ballot in November.

What Party
The Progressives wanted the senator to do as young Bob LaFollette is doing in Wisconsin in his attempt to return to the senate. LaFollette is running on an out-and-out Progressive ticket.

The Democrats tried to lure him their way. Democratic members of the house from California and Senator McAdoo all came out and endeavored him. The Roosevelt administration, which he supported in the 1932 presidential campaign and for which he has worked hard since, openly gave him its blessing.

He declined with thanks, however, and decided to run as a Republican. He has announced that he will continue to work for the policies of the Roosevelt administration.

His decision is believed to have been based on the fact that no outstanding republican in California has arisen to threaten him. He is confident an unknown candidate can't unseat him.

Moose ticket, Johnson always has been found in the ranks of the Republicans.

The senator's decision must have been welcome news to Senator Lewis of Illinois, chairman of the Democratic senatorial elections committee. Lewis and his committee had been somewhat at sea as to what attitude to take toward Johnson's candidacy. The Illinois senator announced recently that it would be up to the White House to decide.

Johnson's desire to run as a Republican should clarify matters all around.

GAS SUPPLY IS SUFFICIENT FOR 15 DAYS

La Grande this week and was expecting two tank cars there today, which will relieve their situation somewhat. Wallawa county reports a serious shortage, and other sections of Eastern Oregon also are beginning to worry about the supply of motor fuel.

SALEM, July 13 (AP)—Three gasoline filling stations here last night reported that they were definitely out of motor fuel, and operators of several others declared it would be only a short time before their storage tanks would be dry, unless supplies held up by the longshoremen's strike at Portland, could be released.

INHLER PERSONALS

Mrs. L. B. Larsen, of Eugene, visited with her sister, Mrs. Ray Wilson, this week for Walla Walla. She left Wednesday for Walla Walla.

Mr. and Mrs. Oscar Howell and family and Woodrow Westenkow spent the Fourth at Toll Gate.

Mr. and Mrs. Ray Wilson have been operating a cherry packing house at Eight during the past week for the Pacific Fruit & Produce Co. It is the first time cherries have ever been packed at Elgin but now that more than 70 acres are coming into bearing, growers started packing operations at home. Also it is advantageous to have local help trained in packing both from the standpoint of convenience and retaining money paid to labor.

The crop here as elsewhere over the country is cutting heavily but the graded fruit is of high quality. Packing was completed Saturday except for small quantities from the young 30-acre orchard of Bernal Hug's which lies at a higher elevation and is later ripening.

HIS VOICE

I can hear His voice in the meadows
Where the beautiful skylark sings
I can hear His voice in the shadows
And Oh, what joy it brings.

I can hear His voice in the sea waves
Where the shimmering white crests dance
I've heard His voice down in the caves
And where the dead leaves prance.

I can hear it there in the woodland
And I hear it in the whispering trees,
I can hear it in the humming bees
And with the daffodils.

I can hear His sweet voice all the time,
I can hear it everywhere—
In the bright sun or the cold climate—
Where ever I go, He's there.

If you'll listen I'm sure you'll hear it,
I am sure He will talk to you
There where the birds of the woodland fit
Just hear Him speak — just do.

Then His voice will give you the pleasure
It often has given to me
And you'll find it a valued treasure
On mount, vale or sea.

—Franklin Lee Stevenson
