

# What a Change in 50 Years!

*from kitchen drudgery to Kitchen Happiness —*

Gone are the days when mother had to slave in a heat infested kitchen before the old wood or coal burning stove — gone are the days of obsolete home equipment for those who will take advantage of modern electrical inventions.

## AND NOW! —

We count eighteen labor saving electrical items in this large illustration — and we may have passed some up! Every home cannot have all this equipment but all homes can have some of it.

Through utilization of present-day electrical equipment the now happy housewife is relieved of a hundred and one drudgeries such as existed in the day of the wash tub, leaky ice box, old style carpet sweeper, wood stove and wash board.

Come In and Let Us Explain the Convenience and Economy of Modern Electrical Appliances.
