MOISTURE LACK BLAMED

ROSEBURG — Die-back and yellowing of leaves in prune trees in numerous Douglas county orchards is attributed by Roland Parker, county agent, chiefly to lack of moisture. With the continued shortage of normal rainfall the condition is becoming more severe each year, Mr. Parker says. Some growers are endeavoring to correct the condition by removing every other tree in their orchards, while intense interest in the establishment of irrigation plants is being shown by those with water available.

WORLD CONVINCED AMERICAN DOLLAR BACKED BY GOLD

By Claude A. Jagger (Associated Press Financial Editor) NEW YORK, Aug. 16 (AP)—The world money markets awake to the fact this week that the American dollar is still a gold dollar.

This was made clear six months ago when the dollar was put on an international gold bullion standard, at the rate of 15.5-21 grains of the yellow metal per dollar. In the excitement over the nationalization of silver, as a part of the program to restore the value and stability of that metal, there was an inclination to forget the gold behind the dollar.

Under an international gold bullion standard, gold is used only to settle international balances which are not automatically cancelled by the exchange of goods and services and extension of credit between nations.

Last February, Secretary Morgenthau made it clear that under regulations governing the movement of gold, banks and others desiring to ship it abroad at a time when the dollar rates in terms of other currencies made it profitable to do so, would promptly be given permits to effect the transactions. But at no time until this week did the dollar go to such a discount, and remain there long enough to prompt gold shipments. The dollar was at a premium above its new parity most of the time, and the movement of gold was toward the United States.

rather than away. This week, however, for the first time since the new gold basis was set up early in the year, one of the large New York banks sought to export \$1,000,000 in gold, in settlement of foreign exchange transactions, and was at once granted permission. At last, bear speculators in the dollar in Paris and elsewhere had concrete evidence that gold would be shipped, or in other words, that the gold value of the dollar would be automatically supported by actual metal whenever it fell to a discount of close to one per cent. With approximately one-third of the world's monetary gold supply in this country, it became apparent that the dollar was unassailable.

20-Foot Monster Of Deep Seen By Beebe

illuminated by scores of tiny lights, glittering like a diamond necklace. Dr. Beebe said. He estimated its length at 20 feet. Phosphorescent parasites are believed to have given off the lights. Beebe described the monster as the largest he had ever seen in a deep sea dive. Barton attempted to photograph it, but his results were uncertain, as underwater creatures flee when a searchlight is turned on from the bathysphere.

Free Speech With a Backfire Rolls Reds

tossed the platform. Mr. Daniell once tossed a smoke bomb into the stock

exchange as an indication of his contempt for that institution, and the reds assumed he was about to loose some good old-fashioned opprobrium in the direction of something capitalistic. Daniell fooled them. "I'm out to destroy communism," he shouted. "Down with the reds!" This was free speech with a backfire. The reds, always ready to rip the hide from privilege and plutocracy, rose in wrath. They yanked a plank from the platform, and Daniell, still denouncing communists, went down.

Someone called the police. Thirty arrived, and the prospects for bashed heads grew rosy, so some timid soul put in a call for more police. Then 18 more men arrived and riot rifles flashed. The reds dispersed, except for Ben Gordon, 37, who had no place to go. Besides, he felt that the remarks of the previous speaker called for re-

buffal. He mounted the platform, "Comrades," he declared, "communism is great stuff. The previous speaker is just a mouthpiece for the capitalists. I hereby denounce him, and am prepared to lead in three rousing hisses." "Your conduct," said an officer, "is disorderly, on account of nobody's listening to you anyway." They took Mr. Gordon away in a capitalistic patrol wagon.
