Cannery Will Be Chamber Subject

attendance of all members, and also invites anyone interested in a cannery.

J. H. Blunt, social science instructor at La Grande High, will be the speaker. He helped to organize two factories in Indiana, one of which is among the world's largest canning plants. Situated in a small town, it employes about 600 persons annually and during the busiest periods its payroll often lists as high as 1400.

With a growing season here many times longer than it is in the Indiana town, and with plenty of water and good soil, Mr. Blunt is optimistic as to the possibilities for a successful factory in this section. He also has given much study to the success of the Walla Walla cannery, now in its third year of operation.

BAREFOOT SANDALS NEW FASHION FILIP

VICHY (AP) — Barefoot sandals are giving the guests at the Casino something to stare at here o'nights. At a recent gala one blonde appeared wearing a black lace frock and wide-brimmed black lace hat with black sandals which were little more than a series of straps, leaving most of the foot entirely bare. She wore no stockings. Her feet were powdered dead white, with the nails enameled a vivid red, which matched the rubies she wore in her ears.

At least some of the prospective 1935 Marquette university basketball varsity boys have reported at the gymnasium every weekday afternoon this summer for basket-shooting practice, no matter how hot the day.
