GET READY FOR WARMER WEATHER DRIVING!

Have Us Change Oil and Lubricate Your Car

Don't take chances with crankcase sludge and fuel dilution from winter driving. Change to heavier summer oils and lubricants now. Drive your car in for a complete lubrication job.

A NEW 245-GALLON MILK PASTEURIZER HAS BEEN ADDED TO OUR PLANT

It's the latest design, modern pasteurizer constructed of glistening stainless steel. Automatic temperature controls keep the milk at a constant, ideal pasteurizing heat and temperature fluctuations are limited to one-half degree. This accuracy is a means of producing a finer pasteurized milk.
