Automobile Services 56
EXPERT BODY and FENDER work and general car repair. Also painting. John's Body Shop, S. Ave., Mr. Carman.

If You Miss Your Paper Call 600 Before 6:45 P.M.

Isolationism Is Held Obstacle To World Peace

(Continued from Page 1)
with other nations, which will require as much given as take and consideration of the others as we expect for ourselves.

Dr. Millar covered the question of color of races saying that humanity is demanding its rights. India, China and Africa being cited as cases in point. He said that every year 76,000,000 more persons are born into the world, 16,000,000 of whom are white and the rest colored. He named four approaches to the color problem, political, economic, social and democratic, and elided exception work done by members of other than the white race.

"The world today is a dangerous world," he said "and we are now in the midst of world revolution, which, though it cannot be stopped, can be directed.

He said the approaching San Francisco conference will be only a step toward world peace and will be more a question raising conference than a solution, but will bring up problems to be agreed upon later.

The meeting opened with the group singing of "America" and the pledge of allegiance. The Lions club members sang the Lions song under the direction of Leroy Darling, and Horace J. Nelson, president of the Lions' club presided. He introduced three members of the Enterprise Lions club, M. J. Rutherford, mayor of Enterprise, L. E. Jordan, and Carl Miller.

Lyle Johnson, program chairman, presented the high school students, Beverly Smith, who played a viola solo, accompanied by Mary Jasper, and Douglas Talney, who played a clarinet solo.

Rev. Mark A. Tolson read a resolution which had been prepared upon request, in regard to world organization for the maintenance of peace. Copies of the resolution will be sent to all leaders of the organizations represented at today's luncheon and to those who will represent the United States at the San Francisco conference.

American consume approximately 4,000,000,000 bottles of soft drinks annually in normal times.

OUR NEW PRESIDENT - Harry S. Truman, upper left, in his uniform as a soldier in World War I in France, and his latest photograph, made last year. Below he is shown as a boy of 11 years and as a baby in his home town of Lamar, Mo., where he was born May 8, 1884.

Superforts Rain Destruction On Burning Tokyo

(Continued from Page One)
troops closed in today on Baguio, last major Luzon city held by the Japanese. One of three converging columns was reported only three miles from the city.

In southern Luzon other American troops seized Cagary island off the east coast of Albay gulf.

On Okinawa American army troops beat off Japanese counterattacks and, according to Tokyo, prepared for a full-scale offensive against Naha, the capital, at the southern end of the island.

The drive had been stalled for nearly a week by stubborn Japanese defense lines four miles north of Naha.

Domei (Japanese) news agency reported Monday that "countless numbers" of Tokyo residents were rendered homeless by great fires that swept through the city after the Saturday superfortress raid.

A dispatch recorded by United Press, San Francisco, called the American B-29 pilots "white albino aces."

A large number of refugees, "cornered by a huge inferno," were saved at the last minute when the imperial guard opened the gates of the emperor's garden and let them come in, Domei said.

This report said fires broke out in the Yotsuya ward of Tokyo and spread so swiftly over a wide area that many fire fighting brigades and thousands of civilian fire fighters "were unable to get them under control."

President Asks National Unity

(Continued from Page 1)
jeopardize the future security of all the world."

"Machinery for the just settlement of international differences must be found. Without such machinery, the entire world will have to remain an armed camp."

"I appeal to every American, regardless of party, race, creed, or color, to support our efforts to build a strong and lasting United Nations organization."

"Nothing is more essential to the future peace of the world than continued cooperation of the nations which had to muster the force necessary to defeat the conspiracy of the fascist powers to dominate the world."

On domestic policies:
"In our time, tremendous progress has been made toward a really democratic way of life. Let me assure the forward-looking people of America that there will be no relaxation in our efforts to improve the lot of the common people."

AUSTRALIAN NATIVE
The black swan, a graceful bird of somber plumage with a red peak and the under sides of its wings white, is native only to the continent of Australia.

Calendar of Coming Events

April 18 - La Grande lodge of Masons, Masonic temple, 7:30 p.m.

Huge Black Market Activity Charged

CHICAGO, April 16 (UP) - W. S. Greathouse, president of Fryc and company, Seattle packing house, said today that 60,000 hogs and 20,000 cattle move annually through black market channels into private food lockers in 10 western Washington state counties.

These animals are obtained "without benefit of ration points," he testified before a house committee investigating food shortages.

Greathouse blamed the OPA for black markets and said the agency should take some immediate action "that would be very concrete."

He said that the OPA is not the proper agency to enforce its own regulations.

Mortal Remains Of Former Leader Are Laid to Rest

(Continued from Page 1)
listed men from the armed forces - there were no honorary pallbearers - bore the casket to the grave.

Behind the 76-year-old Rev. W. George Anthony, stood Mrs. George Roosevelt, with a son, Brig. Gen. Elliott Roosevelt, on one side, and her daughter, Mrs. Anna Boettiger, on the other.

Behind them stood her four daughters-in-law and her son-in-law, Col. John Boettiger.

Behind them was another family - the nation's official family, Harry S. Truman, his assistants and heads of the armed forces.

Dr. Anthony, wearing the black cassock, white surplice and black skull cap of the Episcopal church, began his prayer.

"All that the Father giveth me shall come to me," he intoned, beginning the Episcopal commitment.

"Unto Almighty God," the Rev. Anthony began.

A bomber overhead swung low, dipped in salute, and almost drowned out the prayer.

"We commend the soul of our brother departed and we commit his body to the ground; earth to earth, ashes to ashes and dust to dust. In sure and certain hope of the resurrection unto eternal life; through our Lord Jesus Christ, at whose coming in glorious majesty to judge the world, the earth and sea shall give up their dead and the corruptible bodies of those who sleep in Him shall be changed and made like His glorious body, according to the Almighty whereby He is able to subdue all things to Himself."

Then followed the Lord's prayer, and three other short prayers.

The Rev. Anthony then read the first verse of a hymn:

"Now the labourer's task is o'er
"Now the battle day is past
"Now upon the farther shore
"Lands the voyager at last
"Father, in Thy gracious keeping
"Leave we now, Thy servant sleeping."

Bugler Sounds "Taps"
At 10:46 the traditional three volleys were fired over the grave. A minute later, taps sounded softly through the garden.

The crowd turned away. Mrs. Roosevelt went to the side of the elderly aunt, and a few minutes later, walked, chin firm, head erect, from the garden.

Mrs. Roosevelt wore a small black hat and a flowing black veil. Mrs. Boettiger wore a black skull cap and smaller veil. The daughters-in-law wore no veils.

After the crowds had departed, Mrs. Roosevelt returned. She stood for several minutes in silence, looking at her husband's grave. She joined her family for the lonely trip back to Washington.

American Forces Drive Eastward To Join Russians

(Continued from Page One)
made the first contact with the Red air force today. The fliers, hunting moving targets in the narrow sector between the U. S. and Russian forces, ran into a formation of 10 Russian planes on a similar mission.

The Russian planes were flying very low and when the Americans spotted them they thought they were Nazi planes. The Americans swooped down and the Russians promptly flipped their wings to disclose the Red star insignia.

Simultaneously, the first infantry wheeled strong tank and infantry formations northward to join with the U. S. ninth army in the pay-off battle for Berlin.

Units of the first and ninth armies linked up along the Elbe about 15 miles south of Barby, trapping thousands of by-passed Germans in the Harz mountains behind them.

Far to the west, the Ruhr pocket all but vanished with the surrender of the German corps commander there, adding tens of thousands of prisoners to the 216,000 captives taken by the U. S. first, third and ninth armies in the past three days.

British second army troops to the north were reported unofficially within 15 miles of Hamburg, while the Canadian first army to the west rammed through to the north sea coast on a broad front, capturing Groningen and bringing the great naval base at Emden within direct artillery range.

But the big breakthrough appeared to have begun on the U. S. first and third army fronts, where the Russian and American lines now are 70-mile miles apart.

Only the front before Berlin were the Nazi lines holding, and the new first army thrust threatened to break that resistance in short order.

BEAR HUNTING EXPENSIVE
A recent study made of the Black Bear in Pennsylvania has revealed that sportmen spend an estimated \$5000 in buying each bear. The money is spent on travel, guns, ammunition, lodging, clothes and other items.

Markets

Stocks Jump to Eight-Year Peak

NEW YORK, April 16 (UP) - Stocks rose to new highs since August 25, 1937, today in the most active trading in nearly a year. The gains added a billion dollars to the valuation of all listed securities.

Utilities led in volume, making up about one-third of all the business transacted on the market. The average reached a new high since July 31, 1937.

Industrials made a new high since Sept. 16, 1937, and rails were at highest levels since July 27, 1937.

Trading started the day with a rush. Low-priced utilities appeared on blocks ranging to 40,000 shares. The tape strained to keep up with the transactions. The 2,000,000-share mark was passed before the end of the fourth hour.

PORTLAND DAIRY
PORTLAND, April 16 (UP) - The Portland dairy market had a favorable tone in the butter market, owing largely to government demands. Prices are unchanged.

Although the egg shortage continued generally, it was felt less in the consumer trade. Prices are unchanged.

Butter - Cube 93 score 42 1/2; 92 score 42 1/4; 90 score 42; 89 score 41 1/2 pound.

Eggs - Prices to retailers: AA large 44c; A large 42c; medium A 39c; small 35c dozen.

Cheese - Oregon triplets 27.2c; singles 27.7c; Oregon loaf 27.9c. Jobbers pay 1/2c below quotations.

CHICAGO GRAIN
CHICAGO, April 16 (UP) - Grain futures advanced sharply on the board of trade today in a heavy session. Part of the buying stemmed from trade endorsement of the new administration. Strong stock and cotton markets, a sharp reduction in grains at terminal markets, efforts to expedite wheat and flour to export points, and mill buying were other bullish influences.

Wheat finished the day up 1/4 to 1 1/2 cents a bushel; corn up 1/2 to 3/4; oats up 1/2 to 3/4; rye up 1/2 to 3/4; barley quoted off 1/4 to 1/2.

May wheat failed to equal the 21-year high established last week. July topped the season peak and other deferred contracts met heavy buying. Considerable short-covering accounted for much of the activity. Profit-taking on the hard spots pared gains.

Thousands Flee as Rivers Rise In Tri-State Area

OKLAHOMA CITY, Okla., April 16 (UP) - Refugees streamed out of the bottomlands of eastern Oklahoma, southern Missouri and northern Arkansas today as more rain fell on the tri-state area where millions of acres of farmland already are inundated by rampaging rivers.

At least seven persons are dead in Oklahoma.

A three-quarter inch rainfall yesterday added to the flood-swollen rivers in Oklahoma.

The greatest destruction was caused by the Grand, Arkansas and North Canadian rivers in Oklahoma. In the Missouri Ozarks and northern Arkansas, the White river neared an all-time crest and authorities of both states joined in evacuating families from the bottomlands.

Torrential rains during the past three days threatened to send the White to record breaking levels and a 17-foot wall of water was pouring over the Ozarks Beach, Mo., power dam, adding to the destruction downstream.

Reed Springs, a village in the Missouri Ozarks with a population of 353 persons, was virtually "swept away" in a cloud-burst late Saturday.

Army engineers at Memphis issued a flood warning for the St. Francis river between Poplar Bluff, Mo., and Trimman, Ark.

British Near Hamburg
British second army troops to the north were reported unofficially within 15 miles of Hamburg, while the Canadian first army to the west rammed through to the north sea coast on a broad front, capturing Groningen and bringing the great naval base at Emden within direct artillery range.

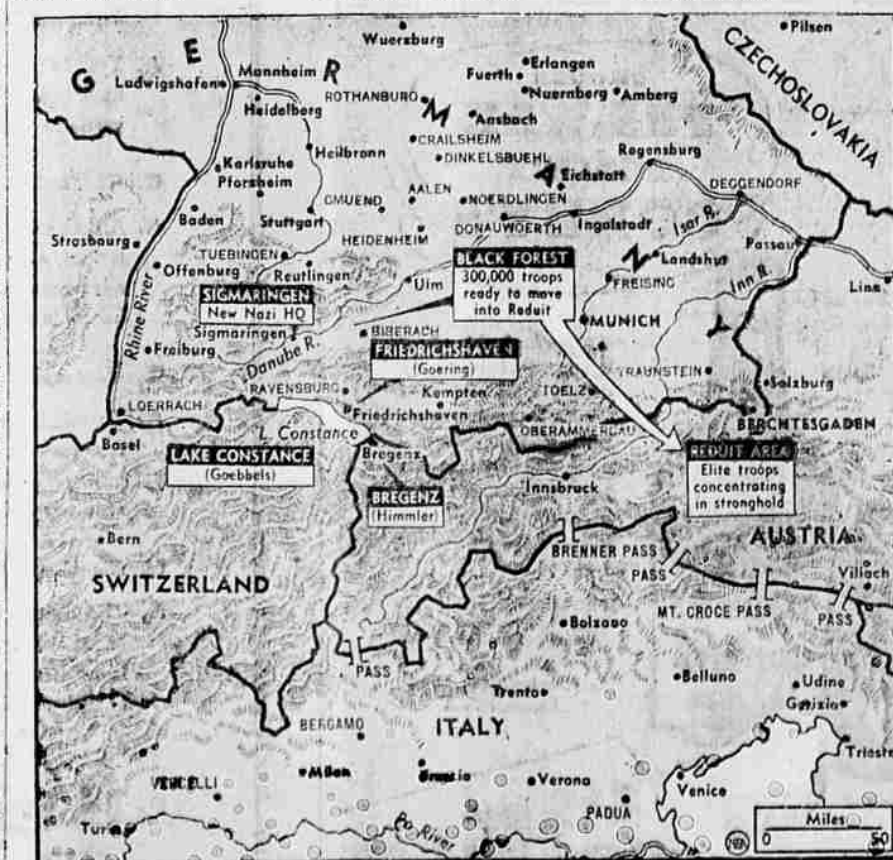

But the big breakthrough appeared to have begun on the U. S. first and third army fronts, where the Russian and American lines now are 70-mile miles apart.

Only the front before Berlin were the Nazi lines holding, and the new first army thrust threatened to break that resistance in short order.

BEAR HUNTING EXPENSIVE
A recent study made of the Black Bear in Pennsylvania has revealed that sportmen spend an estimated \$5000 in buying each bear. The money is spent on travel, guns, ammunition, lodging, clothes and other items.

Four Nazi Generals Captured in Ruhr
WITH U. S. FIRST ARMY IN GERMANY, April 16 (UP) - Four more German generals were captured by American troops in the Ruhr today, and it is believed that the top-ranking Nazi leader, Field Marshal Walter Von Model, still trapped in the pocket with about 30,000 soldiers.

The Germans in the western pocket were surrendering in swarms without fighting. A staff officer said it was a good possibility that the entire Ruhr pocket would be cleaned out entirely by tonight.

WHERE NAZIS PLAN TO HOLD UP - Map shows Bavaria's Ais area of southern Germany where top Nazi leaders expect to hold out, according to their secret "Plan K," uncovered by noted author Curt Riezler, during trip into occupied Germany. He reports that 100,000 picked troops are already in the Reduit. Nazi big shots, according to Riezler, have already moved into the hide-aways indicated on map. The escape plan is said to be of long standing, but decision to put it in operation, with a zero hour set, was made at a meeting of Hitler, Himmler and Wehrmacht generals at Berchtesgaden on March 23.
