WASHINGTON, April 28 (UP)—A group of senators cracked the whip over OPA again today. They demanded even more subsidies for the meat industry.

Chairman Elmer Thomas, D., Okla., of the senate food investigating committee threatened to seek amendments to the price control extension bill if OPA does not act immediately.

Chairman Robert F. Wagner, D., N. Y., of the senate banking committee said he probably would summon Price Administrator Chester Bowles to a special session Tuesday.

The combined demands of the two committees brought from OPA an agreement Monday to provide \$27,000,000 in additional meat subsidies this year. The senators say that is too little.

## Security Conferees Are Spurred by Nazi Peace Rumor

(Continued from Page 1) was connected with earlier reports that Himmler had approached the British and Americans, but not Russia, and was known here.

Russo Showdown Near

The showdowns with Russia are coming first on the question of admitting Argentina to this conference. Argentina is backed by all the American republics and has other support, as well.

Russo-American friction also is inevitable on the question of political settlements now being postwar inquiry into war-time made in Europe. The American delegation has agreed to propose that the organization council may recommend adjustment of any injustices which may be discovered.

The Soviets are expected to interpret that to mean that the organization may want to look into new European boundaries, notably that imposed on Poland by Russia with the approval of Great Britain and the reluctant consent of the late President Roosevelt.

Most of the conference preliminaries were over and the surprise big four super council was ready to take over and get down to the real work of the session.

## Japanese Expect New Invasion Move

(Continued from Page 1) fences and complete conquest of the island was in sight.

For the third straight day, B-29's blasted Kyushu airfields from which Japanese suicide planes have been attacking the American fleet around Okinawa.

Heavy bombers from the Philippines blasted Formosa again, hitting industrial plants and an airfield. Other bombers attacked the port of Saigon in Indo-China.

British armored spearheads advanced 62 miles to reach within 62 miles of the port city of Bantuan in southern Burma.
