

Fighting A War Is Not All Shooting

Material Ranges from Anchors to Zinc

TACOMA, Wash., May 18 (UP) — It takes a lot of things besides bullets and battleships to keep the navy punching in the Pacific. Following the first press tour of the new 290-acre U. S. naval advance base depot at Tacoma, newsmen realized that wars are also fought with pencils and potato peelers, refrigerators and electric flat-irons.

The depot supplies sea-bees in the Pacific theater with construction equipment ranging from four-penny nails to 40-ton derricks—equipment for holding beachheads in initial operations and later for establishing permanent ports, bases and airfields.

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief

Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys.

The kidneys are Nature's chief way of getting the excess acids and waste out of the blood. They help you feel fresh and energetic.

When the filter of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pain, leg pain, loss of pep and energy, getting up at night, swelling, puffiness under the eyes, headache and dizziness. Frequent or scanty passages with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Deane's pills, used successfully by millions for over 40 years. They are a happy relief and will take the 15 acids of kidney toxins which outpoisonous waste from your blood. Get Deane's Pills.

Let's give 'em another donation!

1923 — was the year in which the most devastating earthquake of our time ravaged Japan. It was also the year that a sympathetic America rushed relief by the shipload to the stricken islands.

Our donation then included food, clothing, medicines—even doctors. They repaid us for this softhearted gesture, all right—at Pearl Harbor. And that was only the beginning of their gratitude.

1945 — is a year for donation, too. The kind the war lords will understand. A gift of bombs and incendiaries. Of mighty broadsides from our battleships.

It's going to cost plenty to show those Japs we aren't the suckers they played us for. And that's where each and every one of us comes in for our share of the cost.

If you are to meet the quota Uncle Sam has set for you in his great 7th War Loan, it will mean sacrifice on your part.

Well, we've learned a lot since 1923. We've learned a lot about sacrifice . . . and war. The best way to get this business over with fast is to support our Forces to the limit of our ability with cash.

Remember—last year, by this time, you had twice bought extra Bonds. The Mighty 7th is really two loans in one: that's why it's bigger than before. Find out what your quota is . . . and make it!
