Markets

Irregularity Marks Trading in Stocks

NEW YORK, May 21 (UP)—Stocks moved irregularly today on curtailed volume.

Some of the leading issues registered losses running to more than a point following a modest rally in the general market last week.

Activity centered on a few isolated issues in the leading groups. National Power and Columbia Gas led utilities and each made a new high; American and Foreign Power second preferred also had a high on a rise of more than a point.

Sales totaled 1,080,000 shares compared with 1,430,000 shares Friday. "Big board" bond sales aggregated \$6,610,000 against \$9,737,960 Friday. Curb stock turnover amounted to 380,000 shares compared with 420,000 Friday.

CHICAGO GRAIN

CHICAGO, May 21 (UP)—Talk of heavy tenders on May contracts expiring tomorrow led to a late break on the board of trade today.

Rye, which rose to a 20-year high, broke the maximum 50. Other rye and all barley deliveries broke from four to five cents. Rye finished the day off 3% to 5% cents a bushel; wheat was off 1/4; corn unchanged to off 1/4; oats off 1/4 to 3/4 cents, and barley off 4% to 5 cents.

May rye reversed from an early 20-year peak of \$1.47 1/2 as late reports indicated heavy tenders. Offerings came out on the bulge and prices dropped swiftly.

Wheat showed an easy undertone influenced by southwestern selling, attributed to hedging. Interest centered in May, expiring tomorrow, where demand tended to lag and offerings increased. Firm cash wheat market reflecting steady mill demand and government flour orders checked the downturn.

WHY OKINAWA GAINS ARE MEASURED IN YARDS—You don't measure gains on Okinawa in miles; you get down to bitterly-contested yards feet and inches. Reason is the intricate system of pillboxes and caves set up on every ridge in the southern section of the island. Fanatical Japs, holding out to the last man, must be exterminated as shown above, where soldiers of the U. S. Tenth army's 27th division, stand outside a pillbox with rifles ready. One of them prepares to toss in another grenade, after previous blast had blown out the Japs whose bodies lie before entrance to tomb used as pillbox.

Labor Withdraws From Churchill Coalition Regime

(Continued from Page 1)

lines the coalition government stay in office.

Domestic Problems cited

Atlee and Morrison pointed out that the end of the Japanese war was indefinite. They said that they felt the election should be put off until autumn. They believed that one is necessary in the relatively near future to renew the life of the parliament elected in 1935.

They said the labor party will support the war against Japan regardless, but that differences on domestic economic and social problems should be resolved by election before they became matters of internal dissension in the coalition.

It was considered likely that the laborites would not withdraw from the government until Churchill formally requests King George VI to dissolve parliament.

After that step is taken, six weeks must elapse before a general election can be held. If Churchill hopes to hold the balancing early in July—by July 5, according to some observers—he must go to the king within the next few days.
