

Perfect a Sport and Have More Fun While Keeping Your Figure in Trim

JOAN CAULFIELD: Swims to keep in trim.

By ALICIA HART
NEA Staff Writer

Exercise taken in the sugar-coated disguise of a summer sport is more fun, keeps you interested, encourages proficiency which adds an accomplishment to your list, gives you better coordination and a nicer figure. Can you ask for more?

Take swimming, for instance. No. 1 choice of movie stars because it builds long, symmetrical lines, strips off surplus fat and develops a posture that can never be acquired on land, is also yours for the taking in a pool, the surf or a country creek.

If you pick swimming, take a few expert lessons. Mastering "form"—a passing technique—will make swimming more fun for it will keep you at it to perfect your stroke. It's a sport to enjoy for life and will keep you looking like a stripling.

Those who are intimidated by the complicated "crawl" or breast

stroke can settle for the side stroke, which keeps heads above water, or the back stroke which combines lazy floating with active swimming, and is the best style of all for building up pectoral muscles.

Cycling? Here's fun from the minute you learn to balance yourself in the "saddle" of a two-wheeler. A daily invitation to stay out of doors, it tops all exercise for slimming thighs and ankles.

Tennis or its twin, badminton, is a game of skill which, when learned, jockeys up a girl's self-esteem, gives her gilt-edged credentials into a man's world of sports, and provides exercise that builds lithe muscles, fleet grace and firm flesh.

Roller skating is another exercise which shows results in lean thighs and agile ankles. And skill on rollers learned this summer can be transferred to blades next winter, giving you an all-year-round sport for your pains.

Workers Leaving Shipyard Jobs Branded 'Slackers'

PORTLAND, Ore., May 25 (UP)—The 30,000 persons who are leaving shipyard jobs throughout the nation every month are, in the opinion of Vice-Adm. Howard L. Vickery, chairman of the U. S. maritime commission, "the damndest bunch of slackers."

"These birds who are leaving are holding up the ships and making it necessary for the rest of us to work harder and longer to finish the job," said Vickery, here today in the course of a tour of Pacific northwest shipyards.

"We are in dire need of the ships being built here. If we didn't need them we would stop building them and save our money," Vickery announced that steps are being taken to recruit outside of Oregon and Washington thousands of workers to take up the slack at the Kaiser company's Vancouver yard.

The new worker search is aimed at a 5000 to 6000 man increase.

CAN'T KEEP GRANDMA IN HER CHAIR

She's as lively as a youngster—Now her backache is better. Many sufferers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 3 pints a day.

When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pain, loss of pep and energy, getting up, dizziness, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty urination with smarting and burning sometimes shows there is something wrong with your kidneys or bladder.

Don't wait! Ask your druggist for Doan's Pills, used successfully by millions for over 40 years. They give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.

They raised the Flag again on Corregidor...

Let's raise the money in the MIGHTY SEVENTH

OUR FLAG flies once again over Corregidor. The cost was great in blood and pain, but our fighting men did not turn back. And on Iwo Jima, four thousand men—more and more—died to take the long step forward to Victory. Twenty thousand other soldiers wounded. Yes, we're on the way to Tokyo!

At home, your contribution to Victory is measured in dollars.

The Seventh War Loan is the biggest in America's history because seven billion dollars must be raised from individuals alone. That means you must buy more and bigger War Bonds.

This is really two great loans in one; for this time last year you had been called upon twice to subscribe in War Loans. As our fighting men raise Old Glory all over the world—let's raise the money back home!
