GRAIN RANGE
CHICAGO, May 25 (UP)—Grain range:
Wheat: Open Close
July 164 1/4 165 1/4-3/4
Sept. 159 1/2 160 3/4-161
Dec. 158 1/2 160
Barley:
July 103 1/4 103 1/2 A
Sept. 104 1/4 104 1/2 A
Dec. 105 1/4 105 1/4

CHICAGO GRAIN
CHICAGO, May 25 (UP)—Rye led an advance in grain futures on the board of trade today. Announcement that whiskey manufacture will be resumed in July for 30 days prompted the immediate upturn.
Rye finished the day up 1 1/2-2 1/2 cents a bushel; wheat up 1-1 1/4; corn up 1/2-3/4; oats unchanged—up 1/4, and barley up 1-1 1/2. Grain circles attributed the rye demand to those active on the bull side of the market rather than to the general trade. From the wording of the official order grainmen could not determine how much rye will be needed and whether distilling use of corn will be unlimited. An additional influence in the rye pit stemmed from the heavy shipment of rye from here today, cutting local stocks.
The continued strength of cash corn was reflected in the futures market where active buying in all corn deliveries took place. July rose to \$1.17 1/2, only 1/2 cent from the ceiling.

FIRST MEMORIAL: Franklin D. Roosevelt Lake

Man and nature worked together to create the beautiful scene above and today it stands as the first official memorial to the late President Roosevelt. Formed by Grand Coulee dam built across the Columbia river, the lake is two to three miles wide, 150 miles long. Secretary of the Interior Harold L. Ickes recently gave it the official designation of "Franklin D. Roosevelt lake." The stamp at right, originally planned to commemorate the United Nations conference at San Francisco, was converted into a memorial to the late president by addition of his name to the design, which he inspired. First copy of the stamp goes to Mrs. Eleanor Roosevelt.

Battle Scarred Destroyer Back In Port After War's Worst Punishment

were shot down at ranges of 3,000 to 10,000 yards. Then the Laffey's 40 mm. gunners bagged a suicide plane before it could crash onto the deck.

A sixth Japanese plane was exploded by intense fire from the Laffey so close that it caused the destroyer's first casualty. A man was killed by flying metal.

The tempo of the battle mounted. Other planes attacked, bombed and were destroyed. One bomb jammed the ship's rudder while it was hard left and after that the vessel kept traveling at high speed in a circle.

One enemy suicide plane demolished a gun mount, killing many men.

Fires raged in three compartments below and repair parties worked feverishly to control the flames as the battle continued above.

Then two enemy planes dived into the Laffey within a space of 30 seconds. The two planes sealed off openings to the repair parties fighting the fires below decks. Many died then from suffocation and burns.

Local Airfields Held Necessary To Aviation Growth

(Continued from Page 1)
ated with United Air Lines; Leo Reavy of the CAA engineering department; Emil Williams, general inspector with the CAA, and Blaine Wilcox, chief of CAA engineering for the northwest area.

Needs Are Studied
Purpose of the survey has been to determine airport and airway landing facility and equipment needs of the state for determination of legislation which will allow Oregon to participate in federal airport expansion activities.

It was pointed out that while no money is available for expansion at the present time for airport and other aviation expansion either from state or federal sources, legislation is now being considered in congress for appropriation of funds and which will allow time for the states to formulate a program of cooperation.

The Baker meeting was the fourth of the series, others being held in Salem, Medford, and Bend with total representation from 65 communities of the state and total attendance of 225 persons.

Other state board officials, including Lee Eyerly of Salem, chairman, and J. P. Roberts of Redmond, attended meetings in the early stages of the tour, but were called back to their respective areas.

U. S. Stands Firm On Retention Of Security Veto

(Continued from Page 1)
wer to a series of questions posed by the little nations. The inquiries are designed to gain modification of the Yalta formula through informal interpretation.

The big five meeting, it was learned, was devoted primarily to a discussion of ways and means for speeding the conference to a conclusion.

There is no question among delegation members but that the Yalta formula must be retained. But there are some sharply divergent views about the wording of the general answer to the 22 questions submitted by the little nations. The big powers already have been studying the inquiries for more than 48 hours.

Rails and Liquors Lead Stock Gains

NEW YORK, May 25 (UP)—Railroad and liquor shares led an advance in the stock market today in moderately increased trading.

Demand for the rails reflected current reports on April operations which show the carriers generally to have done better than in the corresponding 1944 period. For the first four months, too, the showing has been better this year than last.

Most active stock in the rail group was New York Central, up nearly a point to equal its 1945 peak.

Liquors responded briskly to overnight action by the war production board in authorizing another "holiday" in July for the production of beverage alcohol.

The rest of the list followed the leading groups, and gains were substantial throughout the leaders.

Portland Grain

PORTLAND, May 25 (UP)—Wheat range—all blank.
Cash wheat: s. white hd. wh. app. 154 1/2; a. white hd. wh. no. west. \$47.08.

THE OLD JUDGE SAYS...

MARY: "Jim, didn't you say you wanted to ask the Judge something about grain, the next time you saw him?"

JIM: "That's right, I did, Mary. Is it true, Judge, that distillers recover part of the grain they use in making war-alcohol?"

OLD JUDGE: "That's absolutely true, Jim. Wherever the government has permitted distillers to purchase the equipment neces-

sary to reprocess the used grain, at least 50% of the feed value (25% by weight) of the whole grain is recovered. It comes back to farms like yours in the form of premium-quality livestock feed...rich in vitamins B1 and B2."

JIM: "Is the same thing true when distillers are permitted to make whiskey?"

OLD JUDGE: "Yes, every bit as true, Jim."
