Tin is a "Precious Metal"

SAVE TIN CANS

It goes to war in hundreds of ways. Tin helps make protective containers for blood plasma, medicines, foods. Tin goes into every field telephone, every cannon, machine gun and hand grenade. Practically everything that rolls, flies, fights or that feeds, heals or saves our men—needs tin! And America's only "tin mines" are in your kitchen.

"STEP ON IT" — SAVE TIN CANS

Coal is Now Rationed

Under the terms of the coal rationing order all dealers must accept their annual quota in 12 equal monthly shipments. These shipments cannot be postponed for later delivery.

PROTECT YOURSELF FOR NEXT WINTER THE SITUATION IS SERIOUS

Our storage facilities cannot hold the coal now being shipped to us. It must be delivered to consumers as received. We don't want our customers to suffer from a coal shortage next winter. We urge them to have us fill their bin now.
