Tin is a "Precious Metal"

SAVE TIN CANS

It goes to war in hundreds of ways. Tin helps make protective containers for blood plasma, medicines, foods. Tin goes into every field telephone, every cannon, machine gun and hand grenade. Practically everything that rolls, flies, fights or that feeds, heals or saves our men--needs tin! And America's only "tin mines" are in your kitchen.

"STEP ON IT" - SAVE TIN CANS

Electric Appliance and Radio Repairing

We repair all types of electric appliances, motors and radios and carry most of the needed burned-out or worn out parts in stock. Therefore, we can put them in good working condition more promptly.
