JAP "SUICIDE" BOMB

Canopy, which may be discarded, permitting escape of pilot if he desires. Pilots not locked in as once supposed, but most are carried to their death.

Bomber carries suicide bomb to point over target, then ... releases it. Suicide pilot plunges into death dive, while bomber pulls away.

Pictogram and photos above illustrate how the Japanese flying "suicide bomb" operates. Yanks have dubbed it the Baka bomb—baka being Jap word for "stupid" or "fool." The bomb, which is actually a flying torpedo, is carried under the belly of a medium bomber and released over its target—usually a ship. Once free, rockets in the tail section propel it in its death dive at over 400 miles an hour. Warhead in nose explodes on contact.

SAN FRANCISCO, July 14 (UP)—Radio Tokyo admitted today the inland city of Kofu, with a pre-war population of more than 82,000 persons, has been "smashed to smithereens" by Superfortress bombs.

Youth, 17, Dies Fighting Fire In British Columbia

VICTORIA, B. C., July 14 (UP)—British Columbia's forest fires claimed another life today, with the government forestry branch reporting R. V. Rowley, 17-year-old junior forest fire fighter killed battling a fire at Fruitvale, near Nelson.

The report gave no details of the accident.

Several fires were burning in the Kootenays and eight areas in the Nelson forest district were closed because of the hazard.

Last Wednesday, Joseph Gailus, 30-year-old logger, died from exhaustion fighting a fire near Cowichan lake on Vancouver island.

The fire situation on the island improved with cooler weather and showers were helping in the fight to control major blazes.

Authorities, however, said the danger was not yet passed for skies were clearing this afternoon and more hot weather appeared imminent.

Safety Rules For Transport Listed

SALEM, July 14 (UP)—Safety rules which should be observed in the transportation of volunteer farm workers were listed by the safety division of the state department today, in connection with national farm safety week, July 23 to 28.

Vehicles should have sideboards at least four feet high tailgates and benches should be installed, so passengers do not dangle their legs over the end of the trucks, and vehicles should be inspected regularly, the division said.

"Horseplay" by riders should be discouraged, while traffic regulations should be followed closely.

Oregon has had an accident free record in farm labor transportation, recently, the division said.

16,000 Strikers To Make Decision On Returning

By United Press

About 16,000 striking rubber workers at the Firestone company's Akron, O., plant meet today to decide whether to join a back-to-work movement that has cut to approximately 37,000 the number of workers idled by labor disputes.

Mass meetings today were called in response to orders from the national war labor board when attempts to arbitrate deadlocked contract negotiations were unsuccessful. The CIO United Rubber Workers have remained away from the big plant for the past two weeks.

Production at the Chrysler company's Dodge plant was resumed yesterday, reducing the number of idle Detroit workers to some 3,200.

A short-lived walkout over suspension of a CIO maintenance man charged with sun bathing on company time was called off at the Westinghouse Electric corporation's Trafford, Pa., plant. The strikers were members of the United Electrical, Radio and Machine Workers (CIO).

Two thousand members of the Independent Progressive Mine Workers union stayed out of seven southern Illinois coal mines for the second day to protest the meat shortage.

Senator Johnson Against Charter

WASHINGTON, July 14 (UP)—Sen. Hiram W. Johnson, R., Calif., today recorded the first negative vote against senate ratification of the United Nations charter.

Johnson and two others were absent when the senate foreign relations committee yesterday voted 20 to 0 to recommend ratification.

Today the California put himself on record in the negative and Sen. James E. Murray, D., Mont., recorded himself in favor of ratification. That made the committee vote 21 to 1 in favor of ratification.

Sen. Henrik Shipstead, R., Minn., now on his way to Washington, has not yet indicated how he will vote. He is the 23rd member of the committee.

Johnson, a vigorous foe of the league of nations 25 years ago, had not previously given a positive indication of how he would vote.

Utah State Prison Back to Normal

SALT LAKE CITY, July 14 (UP)—The Utah state prison returned to normal today after an attempted break which followed the execution of James J. Roedel, hammer slayer.

Prison guards last night frustrated the escape attempt, seventh since May 7 at the penitentiary, when slugs from their shotguns shattered a crude handmade ladder over which three inmates tried to scale the wall. No prisoner was hit.

Warden John E. Harris said prison officials at first believed trouble was brewing over the execution by firing squad yesterday of Roedel for the hitchhiker slaying of a California school teacher. Later, however, they became convinced the outbreak was unrelated to the execution.

He will do so at the request of the retiring secretary, Henry M. Morgenthau.

When Morgenthau resigned, he agreed to serve until Truman returns from the Big Three conference and the president decided to wait until then before formally nominating Vinson as his successor.
