Halifax Residents Return to Homes

HALIFAX, July 20 (UP)—Evacuees returned to their explosion-rocked home today as naval firefighters battled flames at the Burnside naval arsenal in the wake of a series of explosions which killed one person and injured 17.

Military authorities said fires still burning at the 600-acre arsenal seven miles from here were under control and the possibility of further blasts was "small and remote."

Explosions rocked the city for 18 hours Wednesday night and yesterday as tons of explosives were blasted into the sky. The main dump, containing hundreds of thousands of tons of T.N.T. and other ammunition, was spared. The fire started aboard a barge tied up at the arsenal pier.

Naval spokesmen said the one dead was a naval sentry on duty when the first powder blew up at 6:45 p.m. Wednesday.

Markets

Trade in Stocks Reaches Low Level

NEW YORK, July 20 (UP) — Trading in stocks today fell off to the lightest level in more than three months and prices moved irregularly.

Uncertainties over war progress, the long week-end, and a generally cautious attitude on the part of traders contributed to the market lethagy. The usual week-end evening-up operations and lack of demand brought the irregularity.

Individual stocks had small turnover except for two issues—Pacific tin which led the whole list in turnover and made a new high, and Pan-American Airways which eased slightly.

The meeting will include directors of state junior chambers of Oregon, Washington and Idaho, and the national directors from the three states also. Arlo Noyes is chairman of arrangements for the meeting.

European Veterans Get Heavy Training

WASHINGTON, July 20 (UP)—Veterans being sent from Europe to the Pacific theater face an intensive training program designed to prepare them for the fanatical, hand-to-hand type of fighting typical of the Japanese.

Acting Secretary of War Robert P. Patterson and headquarters of the army ground forces oined today in announcing details of the program. It calls for 44 hours of training per week, with emphasis on Japanese tactics and technique which differ in many respects from those encountered in the European theater.

Russians Now Hear Hitler in Palestine

BERLIN, July 20 (UP)—Here's the Russian version of the latest Hitler rumor—Adolf is in Palestine!

Sgt. Maj. Vladimir Paxula, one of the Red guards around the reich's chancellery, told the story today when asked if he believed Hitler is dead.

Paxula said his comrades told him they had read this report in the Red army newspaper published in Berlin, but he hadn't actually seen it himself.

When it was pointed out that Palestine, as the home of the Jews, was hardly a suitable place for Hitler to use as a hideout he merely shrugged and said "I don't know about that."

Chinese Pound Weakening Japs

CHUNGKING, July 20 (UP)—Chinese forces pounded a weakening Japanese defense throughout southeast China today. Troops driving on the former great American airbase at Kweilin, have recaptured Laipo, 55 miles to the south, and are now moving against Yangso, a Chinese communique said.

While Chinese units pushed for Yangso, in Kwangsi province approximately 30 miles south of Kweilin, other troops in the Kan river valley of south central Kiangsi province battled fiercely with a large Japanese force. Most of the fighting took place at points west of Taiho, 150 miles southeast of Changsha, as the Japanese attempted to keep from being driven north.

Yi-yang, on the southern shore of Tung Ting lake in Hunana province 50 miles northwest of Changsha, has also been recaptured.

The communique said Yungfu, 40 miles southwest of Kweilin, was under attack. On the Luichow peninsula Chinese troops pushed 50 miles northeast from Tinpak to reach Yeungkong, 110 miles southwest of Canton.

Admiral Would Keep U. S. Naval Power

SAN FRANCISCO, July 20 (UP)—The United States should retain its balance of sea power until it is certain wars are a thing of the past, and then "five years longer, just to make sure," Rear Adm. Glenn B. Davis, deputy commander and chief of staff of the western sea frontier, declared today.

Speaking before the commonwealth club of California, Davis asserted the United States has become primarily responsible for maintaining peace on the oceans of the world.

Criticizing the public feeling which permitted scrapping of our navy after world war I, Davis said, "we must never again let ourselves come so close to disaster, when we possess the means to make disaster a remote possibility.

12 Rubber Plant Projects Dropped

WASHINGTON, July 20 (UP)—The war production board's rubber bureau today cancelled 12 plant expansion projects in its program for large truck tires and announced partial cutback or complete elimination of 25 additional expansions in the program for smaller truck tires.

Five projects for tires to which tank treads are attached also were cancelled.

The 12 large truck tire plants would have cost $86,000,000 if they had been completed. The reductions announced today, plus cancellation of 21 truck-tire tube plant expansions announced last week bring total cancellations by the bureau to $110,000,000.

The cancellations were made possible by revision of military requirements since the end of the war in Europe. W. James Sears, deputy director of the rubber bureau, said the cost of projects which now will be completed would be only $22,000,000 instead of $132,000,000.

JOB RESTRICTIONS

WASHINGTON, July 20 (UP) — President Truman today restricted civil service competition for several government veterans jobs to veterans.

Fishing in State Described as Fair In Most Areas

PORTLAND, July 20 (UP) — Fishing conditions in Oregon were predominantly described as "fair" in the state game commission weekly bulletin today.

In the coastal section, Lincoln county streams are low and clear, with a few small trout being caught on flies. Blueback trout have been taken on troll in the Alsea, Yaquina and Siletz Bay.

Tillamook county reports a few good catches of trout, with Wilson, Trask, Big and Little Nestucca and Tillamook rivers being fair for angling.

Several limit catches have been reported in Crook county, in Ochoco, Marks and Mill creeks, also in Ochoco dam, while in Deschutes county, the upper Deschutes and Wickiup are reported good for both bait andfly fishing.

In Jefferson county, Metolius, lower Deschutes and Crooked rivers were especially good on artificial flies. All other waters of all three counties reported fair angling.

In Lake county of eastern Oregon, conditions were mixed. Angling results were poor at Dog lake and Drews reservoir, fair at Deadhorse and Blue lake with flies and bait, but better by trolling. In Paisley and Silver lake districts, fly fishing was good, and in big and little Honey creek, Mud creek, and Deep creek fly fishing was good.

Japs Expected to Leave South China

LOS ANGELES, July 20 (UP) —Lt. Col. Charles H. Older, leading American ace in the China theater, today said he expects the Japanese to abandon south China and hold either the Yangtze or Yellow river line until more allied supplies reach China.

Colonel Older, 27, who just returned home has 22 confirmed Jap planes—18 victories in the air and four enemy planes destroyed on the ground.

He branded as "more a liability than an asset" to the Japs the establishing in 1944 of heavy land line from Siberia to Singapore, cutting China in two. American air might since last January has made supply problems a nightmare to the Japs, Older said.

With the Jap air force beaten down, the enemy has more airstrips than planes, Older believes. Their fighter planes are inferior, he said.

WPB Lifts Ban On Leather Soles

WASHINGTON, July 20 (UP) —The war production board today removed its ban on the use of leather soles for moccasin type or saddle shoes. WPB said, however, that it hopes industry will continue to use non leather soles as much as possibly since they "have proved very satisfactory." Synthetic sole producers made about 80,000,000 pairs of soles in 1944. Current production is at the rate of 120,000,000 pairs yearly. —
