Reed College Has New President

PORTLAND, July 23 (UP)—Presidency of Reed college, vacant since the resignation of Dr Dexter M. Keezer in 1942, was filled today by Dr. Peter H. Odegard, 44, prominent educator and recent U. S. treasury executive.

Dr. Arthur Scott, professor of chemistry, has been acting president since Dr. Keezer's resignation. Simeon P. Winch, chairman of the college board of trustees, announced the appointment of Odegard to the college presidency Sunday.

PHOTOS FROM GUAM—IN SEVEN MINUTES—American newspaper readers see pictures of action in the Pacific theater often while the fires of bombings still burn in Jap cities. Photo negatives are flown back to Guam, where they are put on the Acme transceiver radiophoto machine, which flashes them through the ether to the United States in just seven minutes. Above, Ensign Ray Lagodney of Chicago, Ill., operates one of the navy's new machines. Experiments are in progress for transmission of pictures direct from warships.

Markets

Stocks Continue To Show Declines

NEW YORK, July 23 (UP)—Stocks extended declines on light trading today. Demand lightened sharply and modest offerings often were sufficient to bring declines ranging to 2 points. Traders proceeded cautiously pending clarification of reconversion plans and the Pacific war situation.

Pan American Airways, most active issue traded, accounted for about 15 percent of all business done on the market. There were a few other actives far under Pan American. These includd Pacific Tin. Eletric Power & Light and Columbia Gas. Otherwise the individual stocks had a very small turnover.

Pullman Limits May Soon Be 750 Miles

WASHINGTON, July 23 (UP)—The government's limitation on use of Pullman sleepers may be extended to rail schedules up to 750 miles if the present 450 mile ban doesn't suffice to meet army needs, it was learned today.

An office of defense transportation official said it was not yet known whether the 450-mile limit and other emergency steps would fill army requirements for sleepers. But if they don't, he said, there will be no hesitation to take more drastic action.

"We may raise the mile limit on sleepers from 450 to say, 700 or 750 miles," he said.

Window Washer Held Prisoner by Thumb

SALEM, July 23 (UP)—Alvin Tredemeyer of Salem was still nursing a smashed right thumb today, a remembrance of a week-end window-washing job in the American Lutheran church here.

Treadmeyer told police he was held prisoner for more than an hour in the church—and by his right thumb—when a window, minus sash-weights, dropped suddenly and pinned his right thumb between two windows.

A soldier walking by the church was attracted by Tredemeyer's calls and summoned a first aid crew.

Charred Bodies Of Two Fliers Found

McCALL, Ida., July 23 (UP)—The charred bodies of two Ontario, Ore., men, Frank Van Petten and Charles P. Flegel, were brought into McCall late last night by pack train after a day-long trek from the dense and rugged country northwest of here, where the wreckage of their airplane was found Friday night.

The plane, which carried the two, was spotted by an elderly man known only as John Black of California, a volunteer searcher who, with his two German shepherd dogs, came here about two weeks ago and has spent considerable time in the wilderness country since.

Black notified Bill Yaggy and Lloyd Johnson of McCall who later flew over the area, which they had covered dozens of time previously, and later Johnson and Eldon Whitesitt parachuted into the country and assisted the pack train, headed by Lafe Cox, in bringing the remains of the two fliers to McCall.

Strike Halts Plate Steel Production

PROVO, Utah, July 23 (UP)—Plate production was halted at the $200,000,000 Geneva Steel company plant here today by a 400-man A. F. L. union strike that also threatened to stop all remaining operations.

The strike began in the maintenance shop at midnight Sunday and by today had spread to all operating maintenance units, automotive cranes, foundary and plate mill shops.

Walther Mathesius, company president, said the work stoppage, which he termed a "wildcat strike," was caused by the company hiring of a temporary shift foreman to supervise work in the machine shops to relieve the regular foreman, who is on vacation. He said union officials reported the temporary shift foreman was not an A. F. of L. member.

Chinese Continue Pursuit of Japs

CHUNGKING, July 23 (UP) Chinese troops, advancing in pursuit of Japanese withdrawing from the coastal city of Chaoan, have reached the border of Kwangtung and Fukien provinces, a Chinese communique reported today.

Chaoan lies at the delta of the Han river in Kwangtung province 12 miles north of the important Japanese-held port of Swato. The Fukien province frontier is 19 miles north of Chaoan.

Senators Charge U. S. Bounds By Secret Agreements

Cites Reparations Deal Made At Yalta Talks

WASHINGTON, July 23 (UP)—Some senators charged today the American people "apparently are bound by agreements made without their knowledge" following reports of a secret pact at the Yalta conference to exact $20,000,000,000 in reparations from Germany, with Russia receiving half the total.

Sen. Harln J. Bushfield, R., S. D. said he wondered "when we're going to get through with secret agreements"

The purported secret agreement was reported yesterday by Bert Andrews, chief of the New York Herald Tribune's Washington bureau. He said it was determined at the Yalta conference "in great detail" exactly how much reparations would be paid by Germany and what part of it would go to each of the big three nations.

The late President Roosevelt, Prime Minister Winston Churchill and Premier Josef Stalin "agreed to exact 20 billion dollars in reparations from Germany in five years," Andrews said.

"The agreement was Russia would get 50 percent, the United States 20 percent, Great Britain 20 percent and the minor victims of Nazi aggression in Europe, 10 percent.
