THE LA GRANDE EVENING OBSERVER WILL NEED CARRIERS AVAILABLE SEPT. FIRST
For Autumn and Winter carrying we require boys and girls of seventh and eighth grade ages and older.

We then require carriers capable of scheduling and maintaining required school work. We will need boy and girls whose homes co-operate in the supervision and direction of their time.

This requires above-average boys and girls preparing themselves for a post-war world in which they recognize there may only be opportunity for the ablest in private industry. It requires boy and girls of the sort who may earn much of their own way through college. We prefer boys and girls who, in addition to performing their school and home duties and administering an evening newspaper route successfully; recognize the advantages of the Sunday school and of scouting or other character-building organizations or programs.

We believe the finest generation of youth ever reared in America are growing into manhood today and we seek those who aspire to be leaders of that group when they reach maturity.

SUMMONS
IN THE CIRCUIT COURT OF THE STATE OF OREGON FOR UNION COUNTY
Jess B. Youngs, Plaintiff)
Emma E. Youngs, Defendant)

TO: Emma E. Youngs, the above named defendant; IN THE NAME OF THE STATE OF OREGON: You are hereby notified and required to be and appear in the above entitled Court and answer the complaint therein filed against you in the above entitled cause on or before the last day of the period of four full weeks from the date of the first publication of this summons, and if you fail to so appear and answer said complaint, plaintiff will apply to the Court for the relief demanded in his complaint hereto, to wit: for a decree of absolute divorce from you.

This summons is published once a week for a period of four consecutive weeks by order of the Hon. C. K. McCormick, County Judge acting in the absence of R. J. Green Circuit Judge, which order was duly made and entered on August 4th, 1945, and the date of the first publication thereof is August 6th, 1945.

R. J. Kitchen, Attorney for Plaintiff Residing at La Grande, Ore. Aug. 6-13-20-27

BEGAN WORK BEFORE 1940 ON "U-235"
WASHINGTON, Aug. 6 (UP)—First knowledge American physicists had begun to corral atomic energy — possibly the greatest scientific discovery of all time—came to light in the spring of 1940.

Scientists at time concluded: One pound of U-235 if they had it and could harness it would be equal in power output to 5,000,000 pounds of coal or 3,000,000 pounds of gasoline, roughly 400,000 gallons.

One pound of U-235 would contain as much energy as 15,000 tons of TNT, or 300 carloads of 50 tons each.

If this one pound of U-235 exploded within 1/10,000ths of a second, as does TNT, the pressure produced would be of 100,000,000 atmospheres. This would be about 1,000,000 times the pressure produced by TNT or nitroglycerine, they estimated then.

was enough. "I don't know whether he continued to take Morrell's medicine," Emmy told me. "But from that time on, he hated Brandt. When Brandt allowed his wife, a Red Cross nurse, to be captured by the Americans, Hitler had Brandt arrested. That's the Fuehrer's gratitude!"

Exact time of this alleged incident she did not disclose. She did give the reason. It was, according to Frau Goering, because the doctor realized that Hitler was mad.

Here is the story as she told it to me:
The Fuehrer had two physicians, Morrell and Brandt. Morrell decided that his patient should die. So into a prescription he put a quantity of strychnine that, in course of time, would have been lethal. By chance Doctor Brandt saw the prescription. He recognized its significance, and rushed to Hitler.

"My Fuehrer," he cried, "Morrell wants to murder you."
Hitler listened to Brandt's story and sent for Morrell, with whom he had a long talk. Then he called Brandt back. He told Brandt that while he appreciated him, he had decided that one doctor

Atomic Bomb May 'Usher in New Era' Say Truman

WASHINGTON, Aug. 6 (UP)—President Truman said today the new atomic bomb developed in this country as a weapon of war promises to usher in a "new era" in man's understanding of the forces of nature. Secretary of War Stimson, also said atomic power holds great promise for use in peace times.

Stimson has named a policy committee, with the approval of the president, to formulate recommendations concerning the post-war organization of Atomic power development.

On this committee are Stimson, chairman; James F. Byrnes, secretary of state, Ralph A. Bard, former undersecretary of the navy; William L. Clayton, assistant secretary of state; Dr. Vannevar Bush, director of the office of scientific research, Dr. James B. Conant, chairman of the national defense research committee and president of Harvard university, Dr. Karl T. Compton, chief of the office of field service and president of the Massachusetts Institute of Technology; and George L. Harrison, special consultant to Stimson and president of the New York life insurance company.

GOOD JOBS IN PLEASANT HOMES
RICHLAND, Wash., Aug. 6 (UP) — President Truman's revelation today of the atomic bomb gave 17,000 residents of this wartime village their first hint of what they were manufacturing at the vast Hanford engineering project 30 miles away.

The workers who came here from virtually all states in the Union have good jobs and live in pleasant government-built homes on the banks of the Columbia river.

PARTIAL LIST OF CONCERNS REVEALED
WASHINGTON, Aug. 6 (UP)—Secretary of War Henry L. Stimson today revealed a partial list of industrial concerns which contributed "so signally" to the success of the atomic bomb. The Du Pont de Nemours Co. designed and constructed the big Hanford installations in Washington state and operates them, he said.

A special subsidiary of the M. W. Kellogg company, of New York designed one of the plants at Clinton, Tenn., which was constructed by the J. A. Jones Co. and is operated by the Union Carbide and Carbon Co. Other commercial firms listed are the Stone & Webster Engineering Corp., Allis-Chalmers, Chrysler, General Electric and Westinghouse.

WASHINGTON, Aug. 6 (UP)—First knowledge American physicists had begun to corral atomic energy — possibly the greatest scientific discovery of all time—came to light in the spring of 1940.

Scientists at time concluded: One pound of U-235 if they had it and could harness it would be equal in power output to 5,000,000 pounds of coal or 3,000,000 pounds of gasoline, roughly 400,000 gallons.

One pound of U-235 would contain as much energy as 15,000 tons of TNT, or 300 carloads of 50 tons each.

If this one pound of U-235 exploded within 1/10,000ths of a second, as does TNT, the pressure produced would be of 100,000,000 atmospheres. This would be about 1,000,000 times the pressure produced by TNT or nitroglycerine, they estimated then.

was enough. "I don't know whether he continued to take Morrell's medicine," Emmy told me. "But from that time on, he hated Brandt. When Brandt allowed his wife, a Red Cross nurse, to be captured by the Americans, Hitler had Brandt arrested. That's the Fuehrer's gratitude!"

REFUSED AID BY ARMY—Rula Ann De Gooyer, 13, smiles at mother, Mrs. Henry De Gooyer, in Salt Lake City, Utah, hospital where she was treated for rattlesnake bite after being denied first aid by army hospital at Fort Douglas, Utah.

Markets

CHICAGO LIVESTOCK
CHICAGO, Aug. 6 (UP)—Hogs: 4,000; active, fully steady; good and choice barrows and gilts 140 lbs., and up at \$14.75 culling; good and choice sows at \$14; complete clearance.

Cattle 15,000. Calves 800. Fed steers and yearlings, including yearling heifers steady; top steers \$18, the ceiling; sizeable supply \$17.25-17.90; slow trade on common and medium grass steers and heifers but supplies unseasonably small; cows steady to 15 cents lower; bulls slow, steady to 25 cents higher; vealers firm at \$18 down; heavy sausage bulls to \$13.25 and heavy fat bulls to \$14.75; stock cattle very slow at \$12.50-14.50.

Sheep: 6,000; early sales and bids slaughter classes around \$1 lower than late last week, this decline representing approximately the amount of the recent packer subsidy which has been withdrawn; seven doubles good-choice Washington spring lambs carrying a small medium end \$14.25 with deck good and choice around 68 lb. steers sorted off at \$15. these about 50 cents higher than last week Monday; best early bids \$14.25 on native slaughter spring lambs; bidding \$6.50 down on shorn aged native ewes; part deck black-faced Washington yearlings breeding ewes \$14.50.

PORTLAND LIVESTOCK
PORTLAND, Aug. 6 (UP)—Cattle, salable 2100; calves 325, market active, steady to strong, medium to good grass steers \$16.75-17; common-medium heifers \$10-14; good heifers \$15; canner-cutter cows \$6.75-9; beef bulls, 11.75-12.50; good-choice vealers \$14-15.

Hogs salable 125, market steady, barrows and gilts \$15.75; sows \$15; choice 50-lb. feeder pigs \$22; heavier weights \$19.50.

Sheep, salable 2000, market active, prices 25-50 cents lower, but slaughter costs 50-75 cents higher considering change, subsidy; medium-good spring lambs \$13-12.50; good - choice \$13; extreme top \$13.75, common grades \$10; good ewes \$5.75-6.

Wheat Easy, Other Grains Declining
CHICAGO, Aug. 6 (UP)—Uncertainties over the government's wheat-buying program coupled with the heavy flow of grain in the southwest prompted easiness in wheat futures on the board of trade today. Other grains declined with May corn independently steady.

Corn moved downward with other grains, on the close all grains finishing weak. Wheat wound up the day off 1 to 1 1/4 cents a bushel; corn off 3/4 to 1 1/4; oats off 3/4 to 1 cent, rye off 3/4 to 1 1/4, and barley off 1 1/4 to 1 3/4.

BUSINESS VISITOR — Bill Jenkins of the Boise Falk's store is a business visitor in La Grande this week.

HAGG, ANDERSSON WIN
LONDON, Aug. 6 (UP)—Gunder Hagg and Arne Andersson, Swedish running stars, won the special mile and two mile races at the American G.I. track meet today before a crowd of 55,000. Their times, however, were far below the world records for the events.

SUPPORTS PETAIN
PRINCE OF BOURBON
PARIS, Aug. 6 (UP)—Prince Xavier of Bourbon-Parma testified today that Marshal Henri Philippe Petain's orders caused the release of thousands of Frenchmen from concentration camps in central France.

Prince Xavier, brother of Empress Zita of Austria and uncle of Archduke Otto, was the second defense witness at the trial of Petain. The prince said if Petain had not signed the armistice with Germany in 1940, Frenchmen would have suffered the same fate as the Poles.

City News

TWO ARRESTED: Clyde Malone, Texas, was arrested by city police early this morning on charges of being drunk and disturbing the peace. Jim Coulter, Joseph, was arrested last night on charge of being drunk. Both men are being held for city court today, police records show.

GRASS FIRE — Grass fire at Willow street and O avenue called out city firemen yesterday afternoon. There was no damage.

PUT OUT FIRES — Within 15 minutes yesterday afternoon, city firemen extinguished two fires, using a total of a gallon-and-a-half of water. At 2:50 an awning fire at the Lavender lunch was reported, which the firemen put out in five minutes. At 2:35 they answered a call for a fire in the upholstery of an automobile parked by the Foley hotel. Neither fire caused any damage.

VISIT INTAKE — Ed Ford, city manager, inspected the water intake Saturday. With the exception of some imperfect filters, which have been repaired, the intake is in good condition, Ford said.

TAKES VACATION — Al Harlow, Union county treasurer, will leave Wednesday for the Willamette valley, where he will spend two weeks vacation.

VISIT HERE — Mr. and Mrs. Norman A. Porter, former La Grande residents, arrived in the city yesterday for a short visit with friends before they continue on to Camp Adair, Corvallis, where he will be stationed with the army. They came here from Camp Robinson, Arkansas. Prior to entering the army early this spring, Porter was a member of the staff of the Evening Observer.

HELD FOR COURT — Leo Leroy Toal, La Grande, was arrested by city police last night on charge of being drunk. He was held for justice court by E. L. Milbert, special agent for the Union Pacific railroad.

THE announcement followed an election by employees July 20. The decision applies to all employees engaged in woods and sawmill operations at the mill. Sawmills not covered by the decision are clerical workers, joint scalers, some part-time workers and supervisory employes.

YOUNGEST MAJOR GENERAL
Stephen D. Ramseur was only 27 years old when he became a major general in the Confederate army. He was the youngest of all major generals at that time.

POOLED KNOWLEDGE
The president said that beginning in 1940 — before Pearl Harbor — the United States and Great Britain pooled their scientific knowledge that would be useful in war and said "many priceless helps to our victories" came from that arrangement.

More Details
Truman said Secretary of War Henry L. Stimson, who has kept in personal touch with developments, will make public further details. Stimson's statement, the president said, will give "facts" concerning the atomic production centers at Oak Ridge, near Knoxville, Tenn.; at Richland, near Pasco, Wash.; and near Santa Fe, N. M.

The resident said although the workers at these sites have been making materials to produce "the greatest destructive force in history." They had not been in danger beyond that of many other occupations.

Not Commercial
The president said this harnessing of atomic energy might be used in the future to supplement the power that comes from coal, oil, and waterfalls, but said at present "it cannot be produced on a basis to compete with them commercially."

Before that comes, he said, there must be "a long period of intensive research."

"Under present circumstances it is not intended to divulge the technical processes of production or all the military applications, pending further examination of possible methods of protecting us and the rest of the world."
