How You Can Shine at Night

JANE WILSON: Glamorous.
By ALICIA HART
NEE Staff Writer

Crush a handful of gold, silver or colored sequins into finely ground particles and sprinkle these over your evening coiffure. Make shine stay put by giving your hair-do a once-over lightly with lacquer.

Tricks like this one can give you a magic lease on glamor after dark, says radio's Jane Wilson, piquant singer on Fred Waring's show, who pulls others out of her sleeve. To achieve a more dazzling effect with her eye-shadow, Jane puts on color with an orange stick in a pencil line only along the edge of her lids.

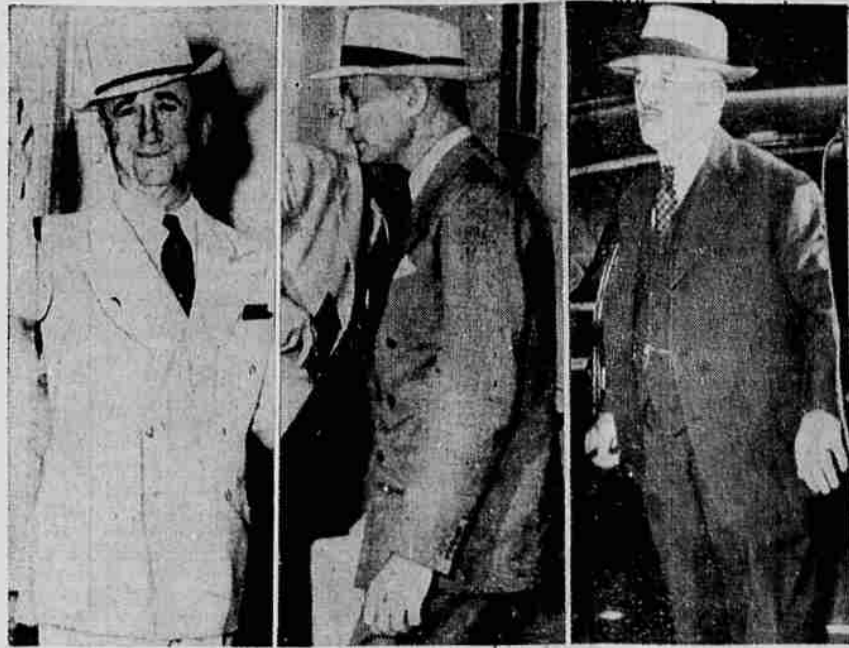

After penciling her brows, she dips an orange stick into olive oil and draws it through the center of her brows. This highlights brows and lodges a nice touch of luster above the eyes.
