PIN-WORMS

At Last—
A Real Treatment!

Anyone who has ever had Pin-Worms knows how tormenting and embarrassing this infection can be and how hard it may be to deal with the creatures, once they get a foothold inside the body.
Today, thanks to a special, medically-recommended drug (Fenton's), a highly effective treatment has been made possible. This drug is the vital ingredient in P.W., the Pin-Worm Tablets developed in the laboratory of Dr. E. L. Jayne & Son. P.W. tablets are small and easy to take, and they act in a special way to remove Pin-Worms. So watch out for the warning signs that may mean Pin-Worms in your child or yourself—especially the irritating rectal itching and discomfort. Ask your druggist for JAYNE'S P.W. right away, and follow the directions. Satisfaction guaranteed, or your money back.
It's easy to remember: P.W. for Pin-Worms!

MANY NEVER SUSPECT CAUSE OF BACKACHES

This Old Treatment Often Brings Happy Relief
Many suffers relieve nagging backache quickly, once they discover that the real cause of their trouble may be tired kidneys. The kidneys are Nature's chief way of taking the excess acids and waste out of the blood. They help most people pass about 7 pints a day. When disorder of kidney function permits poisonous matter to remain in your blood, it may cause nagging backache, rheumatic pains, leg pains, loss of pep and energy, getting up nights, swelling, puffiness under the eyes, headaches and dizziness. Frequent or scanty passages with smarting and burning sometimes show there is something wrong with your kidneys or bladder. Don't wait! Ask your druggist for Doan's Pills, a stimulant diuretic, used successfully by millions for over 40 years. Doan's give happy relief and will help the 15 miles of kidney tubes flush out poisonous waste from your blood. Get Doan's Pills.
