

# "GRAIN FOODS"

## WILL HELP WIN THE PEACE, TOO!

The grain food producers of the Grande Ronde valley produced all out for war, doing their part, together with the rest of the nation, to achieve final victory.

## Now There's a Greater Demand Than Ever For ENRICHED FLOURS

**A Vitamin-Conscious Public Has Learned of Their Health-Giving Qualities**

The productive capacity of our country depends on the health of its people, working in industry and throughout our social system. For many years, and with greater emphasis during the war, the American public has been made aware of the health-giving properties of enriched flour, obtaining the diet which made it possible to produce day after day for the

war effort. Health is as important in peace as it is during war. Enriched flour and grain foods will have a large share in providing the energy for peacetime production. For the coming period when our area and our nation will develop to the fullest possibilities of civilization and to new high standards.
