

## “My ‘Cat’ Has Given Me Thousands of Hours of Fine Service”

“We farmers have been given a great deal of credit for the job we were able to do in feeding the nation, its armed forces and its allies during the war. Well, it's true of course, we worked for it, but let me tell you that the job would have been nigh impossible, with help and other shortages unless our machinery had been able to take it. My ‘Cat’ has given men thousands of hours of fine service for many years. I expect it will be producing for some time yet.”

Orders for “Caterpillar” Tractors will be filled as fast as possible, but we may be a long time delivering new equipment to every farmer who needs it. In anticipation of this and in the interest of keeping your equipment working efficiently and economically, we are improving our shop facilities and equipment constantly. This is the time to

bring your equipment in for overhaul and rehabilitation for the season to come. We will have a better opportunity to do a thorough job, obtain necessary parts and have your equipment ready to go when you need it.

**New Caterpillar Tractors Are Rapidly Being Produced . . . You Can Insure Early Delivery Entering Your Order Now!**

Since V-J Day practically the entire production of Caterpillar Tractor Company's Factory is available for civilian use, but due to the demand for “Caterpillar” products it will be some time before we will have any for display in our store. However, we contemplate on being able to take care of all our customers' needs within a very short time. Place your order now so that you will be in line for early delivery of your new “Caterpillar.”
