How soon will telephone service be available for everyone now waiting for it? Just as soon as there are enough trained men to build and install new telephone equipment, and enough materials with which to make it. We know this will not be for some time, even though final victory has been won. But please be assured we will provide all the telephone service you want just as speedily as we are able.

Now 4 Points For Used Fats

Help Increase Supplies of Soap and Other Peacetime Products By Saving More Used Fats

Industrial fats far short of last year! We are almost down to the bottom of the barrel. The nation's industrial fat supply is millions of pounds less than it was in 1944. We need fully as much as last year to help make the soaps and other civilian goods you want and need so badly. So . . .

If you want more soap and soap flakes . . . if you're dreaming of nylons, sheets, cotton fabrics and want them to hurry back to the store counter . . . you can help by saving those used kitchen fats as you never saved before! Save every drop, every day!

These fats are vitally necessary to help speed greater supplies of soaps and hundreds of other things—like new cars, electric washers, irons, refrigerators and tires. Industry must have these fats . . . to help get to you more quickly the peacetime products you've been longing to have for years!

So slim and sassy and soapy just as you did so faithfully before V-J Day. It is a peacetime job now—a job that will help you. And to prove how important it is, your government has increased the grant bonus. So help meet this nation's need by continuing to save used fats.

Londoner Not Fooled By Visit of Queen Mary, Windsor

LONDON, Oct. 8 (UP)—James Kirby confessed today that he thought his wife had "gone crackers" when she urged him to wake up because "Queen Mary and the Duke of Windsor have come to see us."

The 47-year-old gas works employe was taking his usual Sunday afternoon nap when a black limousine parked outside the Kirby's pre-fabricated house on the Isle of Gods in the east London dock area. Phoebe, his wife, was washing pots and pans.

Mrs. Kirby answered a knock on the front door and was greeted by the queen and the duke, who asked whether they might come in to inspect the interior of the pre-fabricated home.

Although surprised, Mrs. Kirby hastily replied:

"Of course."

The royal visitors stayed for 20 minutes, making a detailed examination of the building.

President Truman Finds He Cannot Enjoy the Fair

CARUTHERSVILLE, Oct. 6 (UP)—President Truman was a thoroughly frustrated man at the fair yesterday. He couldn't throw a single ball at a single bottle and he couldn't eat cotton candy or drink pink lemonade.

The coach dancers were out-of-bounds—for him. So were the merry-go-round and the ferris wheel.

All he could do was sit in the judge's stand at the race track, chew gum and listen to people cheer him. Because it wasn't their old friend who attended the fair for the 11 preceding years—it was the president of the United States, accompanied by a cortege of big shots from Washington, secret service agents and a horde of Washington correspondents and photographers.

PEACE HOPES FADE

CHUNGKING, Oct. 8 (UP)—Remaining hopes that negotiations between Chinese central government and communist factions would result in a working political agreement faded today and both parties believed full scale civil war in China could be avoided only by an interparty political council.
