MEMO TO ADVERTISERS

For the information of our advertisers, A. B. C. auditors make a complete, annual audit of our circulation.

**AUDITED DISTRIBUTION for your Advertising**

Good advertising copy and attractive layouts are, of course, essential to the success of your advertising. But from the standpoint of final results the answer depends upon the distribution of your advertising.

When you buy newspaper advertising you are paying for an opportunity to talk to people about your merchandise and service. What you get for your money, therefore, depends upon how many people there are in your audience, where they are, how this audience was obtained, and many other facts that indicate the value of the circulation as a market for what you have to sell.

In order that our advertisers may have this information and thus be able to invest in advertising space in this newspaper on the basis of known, verified facts, we are members of the Audit Bureau of Circulations.

The Bureau is a national, cooperative association of publishers, advertisers and advertising agencies. Every year one of the trained auditors employed by the Bureau makes an audit of our circulation records. This audited information is issued in official A. B. C. reports covering each member publication. You avoid guesswork and speculation when you advertise in an A. B. C. newspaper.
