"Let's talk dry cleaning"

By Leonard Craig

NEW SUMMER COTTONS SHOULD BE DRY CLEANED

New summer cotton frocks are now specially treated to make them resistant to wrinkles and creases. This presents a serious laundering problem.

Home laundering often washes out this special finish treatment and leaves the garment limp and lifeless.

Quality dry cleaning brings back all the original freshness and beauty of a summer cotton dress without removing its protection finish. You can add years to a dress's wear-life by giving it professional cleaning care.

Dry cleaning restores the original sparkle of summer cottons. The Sanitone cleaning operation makes use of a new sizing material developed by a textile-chemical company. Called "Style Set," the new sizing is designed especially to restore new body to any cotton garment.

Incidentally we make every effort to do a thoroughly professional job on your draperies and in spite of idle rumor, we do NOT send your draperies out; they are processed fully by CRAIG'S NU-WAY CLEANERS, 178 Sixth, Phone WO 3-2311.
