"Let's talk dry cleaning"

By Leonard Craig

NU-WAY SANITONE DRY CLEANER ANNOUNCES "COTTON CLINIC" FOR FOURTH CONSECUTIVE YEAR.

This year's spring and summer cotton dresses feature more cotton styling than ever before. Because of this need the same care and consideration as other fine garments for if cottons are simply tossed into the family washer for cleaning, they'll lose their bright, fresh appearance. For this reason, a special dry cleaning process has been developed to restore a crisp new look to summer cottons.

Once again we're operating a "Cotton Clinic". Cottons deserve special cleaning, and will look much better for it.

These cleanings feature a finish called "Style Set" that brings back the original crisp, fresh look of cotton dresses, and does away with such home washing problems as too much or too little starch, shiny seams, and streaks on dark fabrics.

Speaking of cleaning, we are qualified to do the best job on your draperies, here in our own establishment. All our work is guaranteed.
