The problem isn't what you should do-it's what your husband should do. A man 47, in good health, who's been accustomed to working every day, makes a big mistake when he quits cold and settles in his rocking chair to vegetate for the rest of his life. The big tragedy is that he failed to develop some hobbies or interests and can now find nothing better Since you live in St. Petersburg, I suggest you contact the Chamber of Commerce and get a list of organizations and hobby clubs. There are thousands of retired people in your wonderful community and many of them are busier now than they have ever been in their entire lives and happier, too.
